applicant's request. Staff had originally recommended that the Variance to the Subdivision Regulations to waive the requirement to install curb, gutter and sidewalk be approved with the stipulation that the applicant sign a waiver of right to protest any future assessment for the improvements and that the Variance to the Subdivision Regulations to waive the requirement to install water be approved contingent upon a water line being constructed to the northwest corner of the subject property within the Elk Vale Road right-of-way.

The applicant has again requested that this item be continued in order to be heard in conjunction with an associated Preliminary and Final Plat. The applicant requested that the Preliminary and Final Plat be continued to the February 20, 2003 Planning Commission meeting to allow them time to revise construction plans for Homestead Street. As such, staff is recommending that the Variance to the Subdivision Regulations be continued to the February 20, 2003 Planning Commission meeting at the applicant's request. Please note that no other part of this Staff Report has been revised.

Staff recommends that the Variance to the Subdivision Regulations to waive the requirement to install curb, gutter and sidewalk be approved with the stipulation that the applicant sign a waiver of right to protest any future assessment for the improvements and that the Variance to the Subdivision Regulations to waive the requirement to install water be approved contingent upon a water line be constructed to the northwest corner of the subject property within the Elk Vale Road right-of-way.

The applicant has submitted a Variance to the Subdivision Regulations as outlined above. The applicant has also submitted a Preliminary and Final Plat to create a 15 lot commercial development to be known as the Big Sky Business Park. The property has recently been annexed into the City limits of Rapid City and, subsequently, zoned from No Use District to General Commercial District with a Planned Development Designation and Office Commercial District with a Planned Development Designation, respectively.

The property is located east and north of the Rushmore Industrial Park on the east side of Elk Vale Road and is currently void of any structural development.

STAFF REVIEW:

During the review of the Variance to the Subdivision Regulations, staff identified the following considerations:

Curb, gutter and sidewalk: Currently, curb and gutter are located along the west side of Elk Vale Road. The Engineering Division has indicated that due to the terrain along the east side of Elk Vale Road, curb, gutter and sidewalk may be difficult to construct. The existing ditches along this section of the roadway accommodate the drainage flows as needed. The South Dakota Department of Transportation has also indicated that they are not requiring these improvements at this time. As such, staff is recommending that the Variance to waive the

requirement to install curb, gutter and sidewalk be approved with the stipulation that the applicant sign a waiver of right to protest any future assessment for the improvements.

Water: Currently, a water line is located within the southern 418 feet of the Elk Vale Road right-of-way as it abuts the subject property. A water line to be constructed within Timmons Boulevard located parallel to Elk Vale Road, will serve the subject property. However, the Engineering Division has indicated that the water line must be extended to the north lot line of the subject property within the Elk Vale Road right-of-way in order to provide water service to future development north of the subject property. Extending a water line from Timmons Boulevard to the northwest corner of the subject property will provide the connection as identified. As such, staff is recommending that the Variance to the Subdivision Regulations to waive the requirement to install water in the Elk Vale Road right-of-way be approved with the stipulation that a water line be constructed to the northwest corner of the subject property within the Elk Vale Road right-of-way.

Legal Notification Requirement: As of this writing, the receipts from the certified mailings have not been returned. Staff will notify the Planning Commission at the January 9, 2003 Planning Commission meeting if this requirement has not been met. Staff has not received any calls or inquiries regarding this proposal.
