RECOMMENDATION:

Staff recommends that the Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement as per Chapter 16.16 of the Rapid City Municipal Code be **continued to the July 8, 2004 Planning Commission meeting at the applicant's request.**

GENERAL COMMENTS:

(Update: This Staff Report has been revised as of June 16, 2004. All revised and/or added text is shown in bold print.) This item was continued at the June 10, 2004 Planning Commission meeting at the applicant's request. On June 15, 2004 the applicant sent an e-mail requesting that this item again be continued to the July 8, 2004 Planning Commission meeting. As such, staff is recommending that the **Variance to the Subdivision Regulations be continued to the July 8, 2004 as per the applicant's request.** The applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to construct curb, gutter, sidewalk, street light conduit, water, sewer and pavement for a portion of Fairmont Boulevard that abuts the subject property. The applicant has indicated that the first 200 feet of the north-south leg of Fairmont Boulevard will be constructed as it will serve as access to two adjacent properties. The applicant has also submitted a separate Variance to the Subdivision Regulations to waive the requirement to construct the southern 550 feet of Fairmont Boulevard as it extends south to Tower Road.

On May 3, 2004, the City Council approved a Layout plat to subdivide the subject property creating a 1.57 acre commercial lot and leaving an unplatted balance. (See file #04PL046.)

The subject property is located at the western terminus of Fairmont Boulevard on the south side of Fairmont Boulevard and is currently void of any structural development.

STAFF REVIEW:

Staff has reviewed the Variance to the Subdivision Regulations and has noted the following considerations:

Fairmont Boulevard: The associated Layout Plat identifies the extension of an 80 foot wide right-of-way for Fairmont Boulevard to the south lot line of the subject property. Fairmont Boulevard is classified as a commercial street requiring that it be located within a minimum 59 foot wide right-of-way and constructed with a minimum 26 foot wide paved surface, curb, gutter, street light conduit, water and sewer. The applicant has submitted topographic information identifying physical constraints within this area of the property and on adjacent

properties located south of the subject property. While it may not be feasible to construct this section of Fairmont Boulevard at this time, there may become a time when traffic volume at the Fairmont Boulevard/Mount Rushmore Road intersection warrants construction of the extension of Fairmont Boulevard to Tower Road to alleviate traffic congestion at the intersection of Fairmont Boulevard and Mount Rushmore Road. As such, staff believes that it is appropriate to secure the right-of-way in order to secure the future connection of the street(s) if needed. Staff is recommending that the Variance to the Subdivision Regulations to waive the requirement to improve Fairmont Boulevard be approved with the stipulation that the applicant sign a waiver of right to protest any future assessments for the improvements and that a minimum 80 foot wide right-of-way be dedicated for the future construction of the street.

Legal Notification Requirement: The receipts from the certified mailings have not been returned. Staff will notify the Planning Commission at the June 10, 2004 Planning Commission meeting if this requirement is not met. Staff has not received any calls or inquires regarding this proposal. **The applicant submitted the receipts for the certified mailings on June 9, 2004. To date, staff has received one inquiry regarding the Variance to the Subdivision Regulations request and no opposition to the request was voiced.**
