To Whom It May Concern:

The Rapid City Historic Preservation Commission supports the application for the Deadwood Grant Program for the Window Replacement project for the Creamery Mall at 201 Main Street, Rapid City, South Dakota. We feel that the project is of invaluable importance to the revitalization of Downtown Rapid City and an excellent example of the very reason the Deadwood Grant Program exists.

Rapid City is very fortunate to have an individual that is willing to restore and preserve an individually listed landmark building prominently located adjacent to our Downtown Historic District.

Thank you in advance for your consideration of the Creamery Mall Window Replacement project.

Sincerely,

Ken Loeschke, Chairman
Rapid City Historic Preservation Commission
