This is a 20 by 25 foot addition that will be located between the existing house + garage. The siding and colors stay the same. The windows will be Marvin that are the same style as the existing windows. The plan is for French doors opening to the North side. The only windows face South that face a fence that is 8 feet tall. The roof line is similar to the existing roofline that is already on a small addition that will be incorporated. The materials will blend with the existing home seamlessly.
