# Polar-Pak Walk-in

## Walk-in to Convenience

Polar-Pak coolers and freezers are made with the same rugged, high performance construction that has made Kolpak the leader in walk-in refrigeration. The Polar-Pak modular panels of 4" 100% foamed in place non-CFC urethane foam offer superior insulating capabilities. The exterior and interior of top-quality galvanized metal offer an attractive and rugged metal finish. Polar-Pak also offers superior air circulation around the coils making it both economical and efficient to run.

Polar-Pak is flexible enough to be used in virtually any configuration. There is no need for numbered panels. Some standard 7'6" high units are part of our Quick Ship Program and will ship within 7 days after your order has been received.
