Project: Goble Residence Siding Replacement
Address: 1711 9th Street Rapid City, SD

The existing siding is a wood clap board siding 4" exposure. The siding is being replaced with a 6 7/8" reveal clap board wood grain siding. The product is a prefinished LP Smartside wood hardboard siding with a prefinished DiamondKote finish.

The existing wood 1x and 2x trims at window perimeters is being replaced with a 5/4 LP Smartside wood trim with a wood grain finish.
Several areas at windows and doors surface trims have deteriorated and are in need of replacement.

No alterations to structure or windows are being made other than removal and replacement of siding.

The intent is a siding replacement to replicate the residence next door siding replacement at 1707 9th St.
