The two openings in the office consist of two 27x 38.5 windows in each opening. We plan on taking the existing windows out and replacing them with white designer metal clad windows by Pella. The windows now are not white on the back but the rest of the house is white. Can always switch to a color close to the color now if had too. The outside trim would be metal frame expander by Pella Windows. The Inside would get replaced with new trim but the same style. We will be staining the windows the same color as is now. The project is not attempting to qualify for the State Tax

Moratorium. The old existing windows are wood new, changing to metal clad outside,
