Subject: RE: 1018 11th Street

Hi Sarah,

If a new elevator tower addition were being constructed, then we would want to investigate further. But it sounds like this work is limited to the interior and involves upgrades to the area that already houses the elevators, so I would agree with no adverse effect. Please let me know if you have any questions. Thanks!

Subject: 1018 11th Street

Hi Kate,

There is a contractor working on a rehab of elevators at 1018 11th Street – (contributing building in the West Boulevard Historic District). No interior features are identified as potentially significant on the survey inventory form. The proposed work is on the elevators. They will receive new cars, new motors, new doors and new electrical equipment. Please confirm my initial determination of no adverse effect, or alternatively let me know if you require additional description, drawings/photographs, etc.
