RAPID CITY COMMUNITY PLANNING
& DEVELOPMENT SERVICES

The above feature is currently named Harney Peak and the SDBGN requests public input on a name for the geographic feature. Based on the U.S. Board on Geographic Names guidelines, the following principles apply:

- Names descriptive of topographic form, suggested by local history, folklore, or incident, or by associated natural life or other phenomena are preferred including American Indian or other ethnic names appropriate to the area.
- A proposed name should not duplicate another name in the state or nearby in an adjoining state.
- If a personal name is proposed, it must be determined in the public interest to honor the person or family for historical or commemorative reasons.
- If a personal name is proposed, the person or persons must be deceased for at least five years.
- If a personal name is proposed, it should just include the surname.

This process is intended to seek public comment on proposed names for unnamed features or new names of existing features. No name should imply discrimination or be derogatory to a particular racial or ethnic group, gender, or religious group. This also includes names considered obscene in a present-day cultural context.

The board is taking written comments until May 1, 2015. SDBGN is also holding meetings across the state for the purpose of taking public comment on the name for the feature. The meetings will be held as follows:
