15.28.220 Historic Sign Requirements

The purpose of this section is to create Historic Sign Districts. The boundaries of the Historic Sign Districts shall correspond to the same boundaries as any historic district or property listed and regulated by the National Register of Historic Places.

Approval for any sign located within a Historic Sign District shall be granted by the Historic Sign Review Committee. This Committee shall consist of the following five persons:

- 1. Historic Property Owner or Business Owner,
- 2. Architect,
- 3. Sign Contractor,
- 4. Member of Historic Preservation Commission,
- 5. Member of Sign Code Board of Appeals.

Length of Term: Members shall be appointed by the Mayor and approved by the City Council for terms of three (3) years. The Committee shall elect a chairperson from its membership to serve for a term of one (1) year.

In considering sign permits within Historic Districts, the Historic Sign Review Committee shall consider the following: size and position, projection, color, message, texture, materials, illumination, and lettering style for the historic era for which the building or structure was constructed. In order to adequately review these factors, the applicant for a sign permit must, in addition to the requirements of 15.28.050, submit the following: a photograph of the property and structure, a photograph or scaled drawing of the property or structure with the proposed sign sketched on it, color chips or color samples of the same colors that are to be used for the sign, and a scaled drawing of the proposed sign depicting the sign fonts and other attributes as they will actually appear on the sign.

The Historic Sign Review Committee may adopt rules in accordance with this ordinance. Meetings of the Committee shall be held at the call of the Chairperson and/or the Building Official. All meetings of the Committee shall be open to the public. The Committee shall keep minutes of its proceedings, showing the vote of each member upon each question; or if absent or failing to vote, indicating such fact, and shall

keep records of its examinations and other official actions. A majority of the voting members of the review Committee shall constitute a quorum.

If the Historic Sign Review Committee approved an application for a sign which meets the criteria established by this Section, then a sign permit may be issued. In order to ensure compliance with the provisions of this section, the Committee may approve applications with stipulations that must be met before a sign permit may be issued by the City. If the Historic Sign Review Committee denies an application for a sign which does not meet the criteria established by this section, the applicant shall be notified in writing as to the reasons for denial. Decisions of the Historic Sign Review Committee may be appealed to the Sign Code Board of Appeals.

15.28.230 Non-Conforming Signs

Any sign existing upon the date of adoption of this Code which does not conform to the provisions of this Code may remain except for the following:

1. Any abandoned sign.
2. Any sign declared unlawful by the Building Official.
3. Any sign which has been moved, removed, relocated or damaged by more than 50% of the value of the sign at the time of such damage.
4. Any sign located on a premise when the use of that premise changes from one Standard Industrial Classification (SIC) two-digit code to another.
