MEMORANDUM

To: Legal and Finance Committee

From: Marcia Elkins, Planning Director

Date: May 7, 2002

Re: Approval of Amendment Number One (1) to the 2002-2006 Transportation Improvement Program (TIP)

Following is a copy of a South Dakota Department of Transportation checklist that recommends the addition of Major Arterial Construction/Reconstruction project for the intersection of US16B and 5th Street in Rapid City. This project has been approved by amendment for inclusion in the South Dakota Department of Transportation's State Transportation Improvement Program. The Rapid City Metropolitan Planning Organization is required to amend the local Transportation Improvement Program to reflect the addition of the project as well.

Transportation Improvement Program Amendments are required when projects are added back into the program. This intersection reconstruction project was in last year's program, but was not let to contract. The state inadvertently dropped this project from the 2002 program. This project is needed to reconstruct this segment of US16B in order to provide left turn lanes for the intersection with 5th Street when it is constructed. Current lane configurations will not adequately handle the additional traffic.

This Amendment has been reviewed by the Metropolitan Planning Organization Committees. The Executive Policy Committee approved Amendment Number One (1) to the 2002-2006 Rapid City Area Transportation Improvement Program, and staff would request City Council approval and concurrence.
