Dear SimplexGrinnell Customer,

Here is the proposal for Sensitivity Testing of your Smoke Detectors at the **Dahl Fine Arts Center**. This test is done on a biennial (every other year), as per NFPA (National Fire Protection Agency) recommendations. The last time this test was completed at your facility was in November of 1999 and is therefore, due this year.

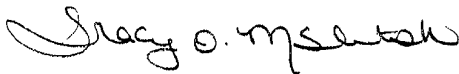

Our fire alarm testing is done in accordance with the standards set by the National Fire Protection Association (NFPA). These standards meet all your city, state and national code requirements (including the sensitivity testing of your area smoke detectors).

As you probably know, the Local, State and National Fire Alarm Codes require you to test and inspect your fire alarm system because, by nature, it is a passive system that must be ready to respond in case of an emergency.

SimplexGrinnell is the leading manufacturer of commercial fire alarm systems and we have extensive technical experience and training in servicing all brands of fire alarm, clock, communication, sound and security systems. Our service department is staffed by factory trained technical representatives with the sole purpose of keeping your systems in peak operating condition and to assure the long life of your equipment.

Please sign the contract and fax back to me at (701) 280-2955 or mail back to me at the Fargo address above. If you have any questions, please call me at (800) 342-4668.

Sincerely,

Tracy O. McIntosh
Service Sales Representative
