Re: Bennett Ditch

We as property owners on the Bennett Ditch fully support putting the ditch on the South Dakota Historic Preservation Register. We all utilize the water during the summer irrigation season. Most of us have made improvements to the ditch on our respective properties.

Dear Ms. Schwan,

I'm writing to offer my support for putting the Bennett Ditch on the National Registry of Historic Places. We have a house on the ditch and it was a part of the community that tied our neighborhood together. It would be a shame if this were lost.

Thanks,

Lynda,
This is to confirm my support for efforts to establish the Bennett Ditch in the Canyon Lake area of Rapid City on the National Register of Historic Places. The home in which I and my family now reside was purchased in the early 1940's by my Grandmother and I purchased it from her. The ditch is certainly a part of my personal heritage and was the centerpiece of the neighborhood 50 years ago. It stands out in my earliest childhood memories. Visiting my Grandmother from our farm on the hot dry prairie, its cool gurgling water was like a fairyland to me. It's disheartening to see it being pushed into oblivion by a narrow band of commercial interests near its source.
I'd appreciate being kept appraised of developments relative to the Ditch's status with the registry.
thank you
