MEMORANDUM

TO: Legal and Finance Committee

FROM: Lisa Seaman, GIS Coordinator

DATE: May 27, 2003

RE: Amendment to the Joint Resolution Establishing Geographic Information System (GIS) Standard Products and Data Pricing List

The implementation of the RapidMap mapping service includes the installation of a computer for use by the public on the second floor of the City/School Administration Building and on the first floor of the Pennington County Courthouse. The public will be able to access the RapidMap mapping service at these computers and will likely want to print the results of their search. The public access computers will be connected to color laser printers to provide a high quality color print to public users.

Staff has reviewed the costs associated with producing an 8½ inch by 11 inch color laser print and determined that the cost will be one dollar and ninety four cents (\$1.94).

Attached please find a copy of a portion of the Geographic Information System (GIS) Standard Products and Data Pricing List with the proposed revisions and the amended Joint Resolution.

Recommendation: The LIS Task Force recommends that the GIS Standard Products and Data Price List be revised to include the cost of printing RapidMap maps from public access computers and set that price at \$2.50 per copy.
