tower, and road improvements from Elk Vale Road to Degeest Street in an area east of Elk Vale Road, south of Interstate 90 Exit 61 and west of Reservoir Road. **The applicant met with the Infrastructure Development Partnership Fund Review Committee on September 2, 2003 and September 9, 2003. The Committee met again on October 20, 2003 and recommended Infrastructure Development Fund dollars as an alternative funding source for the road improvements. That proposal was approved at the November 3, 2003 City Council meeting. As such, the applicant has removed the road improvements from the request, thus enabling only the water projects to be funded with money derived from the Tax Increment District. The City will finance the cost of the improvements to be included in this Tax Increment District. A funding source for the cost of the improvements has not been determined. This Tax Increment Plan will improve water flows for the new elementary school within the district, as well as the Industrial Park located south of the project plan and will provide better fire protection with the increased water pressure. These improvements will enhance the ability of new development to occur along this north-south corridor from Interstate 90 to S.D. Highway 44 and will; therefore, increase the community's economic vitality and expand the City's property tax base.**

**The proposed District boundaries incorporate approximately 640 acres located west of Elk Vale Road, south of Interstate 90 Exit 61 and north of Twilight Drive.**

**COMMITTEE REVIEW: The Tax Increment Financing Review Committee reviewed this proposal on April 14, 2003 and found that the proposed project complies with all applicable statutory requirements as well as the City's adopted Tax Increment Policy. The Tax Increment Committee reviewed this application again on August 15, 2003 to discuss the removal of the road improvements from the project. The Tax Increment Committee found the proposed project complies with all applicable statutory requirements as well as the City's adopted Tax Increment Policy. In addition to the mandatory criteria, the proposal met the following two optional criteria:**

- Criteria #1: The project must demonstrate that it is not economically feasible without the use of Tax Increment Financing.**
- Criteria #2: The project will not provide direct or indirect assistance to retail or service businesses competing with existing businesses in the Rapid City trade area.**

**Additionally, the following discretionary criteria are met:**

- Criteria #2: All Tax Increment Fund proceeds are used for the construction of public improvements.**
- Criteria #6: The project involves the start-up of an entirely new business or business operation within the City of Rapid City.**

**Copies of the adopted Tax Increment Financing Policy are attached for your reference.**
