

## Security License Changes:

The current Ordinance (No. 4024) would add the following language:

“Security activity” includes both “Merchant” and “Private” security activity, and shall also include any person or persons who collect money or examine personal identification as a prerequisite for the entrance into the premises. Movie theatre employees who collect money or examine personal identification shall be exempt from the provisions of this chapter, unless such employees are engaged in other “Merchant” or “Private” security activities.

To apply this requirement only to alcoholic beverage serving establishments, the City Attorney’s Office suggests the following language:

“Security activity” includes both “Merchant” and “Private” security activity, and shall also include any person or persons who collect money or examine personal identification as a prerequisite for the entrance into ~~the a~~ premises **that is licensed to serve alcoholic beverages**. ~~Movie theatre employees who collect money or examine personal identification shall be exempt from the provisions of this chapter, unless such employees are engaged in other “Merchant” or “Private” security activities.~~
