CITY OF RAPID CITY

Growth Management Department
300 Sixth Street
Rapid City, South Dakota 57701-2724

MEMORANDUM

TO: Legal and Finance Committee

FROM: Marcia Elkins, Director
Growth Management Department

DATE: January 31, 2007

RE: Travel Request for Bimende Malik

Staff requests City Council approval of the travel request for Bimende Malik, GIS Analyst, to attend the ESRI instructor led training Developing Applications with ArcGIS Server Using the Microsoft .NET Framework. The advanced course will permit staff to understand the components of the ArcGIS Server Web ADF; apply development rules for working with the Server API in Web applications; develop custom Web applications using the ASP.NET ADF Web controls; develop custom commands and tools; build and deploy custom tasks using the Manager task framework; and, use server object extensions and custom data sources.

The cost of travel is estimated at $2,250.00 and includes the following expenses:

$245.00	mileage reimbursement (610.95m x 2 x .20)
$180.00	Meals
$400.00	Lodging for four days
$1,425.00	Registration
$2,250.00	Total Travel Estimate

Staff Recommendation: Staff recommends approval of the travel request for Bimende Malik, GIS Analyst, to attend the ESRI instructor led training Developing Applications with ArcGIS Server Using the Microsoft .NET Framework in St Paul, MN, June 5, 2007 – June 9, 2007 in an estimated amount of $2,250.00.

CITY OF RAPID CITY
TRAVEL REQUEST

Person requesting travel __Bimende Malik__   Department __Growth Management__

I hereby request permission to travel for the following purpose: (Give specific nature of business and interest of the City to justify cost involved.)
__Developing Applications with ArcGIS Server Using the Microsoft .NET Framework__

List all other City employees, if any, making the trip for the same purpose: _____
na

Place of meeting or destination: __St Paul MN__
Date of meeting __June 6-8, 2007__
Date trip to begin __6-5-07__   Date trip will end __6-9-07__
Method of transportation requested __personal vehicle__

Estimated transportation cost	$ 245.00
Meals	180.00
Lodging ____4____ days	400.00
Other costs – description __registration__	1,425.00

Developing Applications with ArcGIS Server Using the Microsoft .NET Framework

3 days (24 hours)   Authored by ESRI

Overview

ArcGIS Server provides a set of software components and a framework for developing centrally managed GIS applications. This advanced course introduces the ASP.NET Web Application Developer Framework (ADF) and teaches how to build custom ArcGIS Server applications. Students learn about the available libraries, application programming interfaces (API), and server development guidelines, and how to develop different types of Web applications. In course exercises, students build applications ranging from ASP.NET Web applications that use the ADF Web controls to ArcGIS Explorer custom tasks and server object extensions. Students also learn how to extend the ADF with custom buttons and tools through the new task framework.

Those completing this course will be able to:

* Understand the components of the ArcGIS Server Web ADF.
* Apply development rules for working with the Server API in Web applications.
* Develop custom Web applications using the ASP.NET ADF Web controls.
* Develop custom commands and tools.
* Build and deploy custom tasks using the Manager task framework.
* Use server object extensions and custom data sources.

Topics Covered Show/Hide

Who Should Attend

This course is designed for experienced ArcObjects programmers who have Internet development experience using ASP.NET and the Microsoft .NET Framework 2.0.

Prerequisites

Students should have completed Introduction to ArcGIS Server or have equivalent knowledge. Students should also have experience programming with ASP.NET 2.0, COM, and ArcObjects. Familiarity with Internet protocols, Web services, and the *ArcGIS Desktop Developer Guide* is recommended.

Software Used in Course

ArcView 9.2; ArcEditor 9.2; ArcInfo 9.2

ArcGIS Server 9.2
