### **PROJECT PLAN**

# TAX INCREMENT DISTRICT #54 REVISED RAINBOW RIDGE CITY OF RAPID CITY

Prepared by the

Rapid City Growth Management Department September 2005

Revised March 2008

#### INTRODUCTION

Tax Increment Financing is a method of financing improvements and development in an area which has been determined to be blighted according to the criteria set forth in SDCL 11-9. All this is done without incurring a general obligation for the taxpayers of the entire City.

The assessed value of a district is determined by the South Dakota Department of Revenue at the time the district is created by the City Council. This valuation is termed the Tax Increment Base Valuation for the district, or simply the "base valuation." As the property taxes for the property are paid, that portion of the taxes paid on the Base Valuation continue to go to those entities, (City, County, School, etc.), which levy property taxes.

When in succeeding years, the assessed valuation of the district increases, the total property taxes paid by the owners of property in the district will increase accordingly. That increase in taxable valuation is the "increment." When the tax bills are paid, only that portion of the tax bill which results from the Base Valuation, is paid to the taxing entities. The remainder of the tax bill, known as the tax increment, is deposited in a special fund. It is this plan which determines how these accumulated funds will be used. It is anticipated that one or more of the properties in this proposed Tax Increment District will be used for commercial purposes. The creation of this Tax Increment District for economic development purposes will not require an additional levy to make up for the School District's share of the property taxes included in the Tax Increment.

This financing method is invaluable for encouraging growth and development of blighted properties with special development problems, since the amount of funds available for use by the project plan is directly related to the increase in valuation which a given project or development will create.

#### **OVERVIEW**

This plan proposes that a Tax Increment District be created to assist in the development of the Rainbow Ridge Subdivision. The Tax Increment Funds will be utilized for water system improvements and park improvements. The estimated cost of the improvements is \$2,650,000. The proposed boundaries are located north of Mall Drive and west of Haines Avenue.

The public improvements included in this District will enhance the ability for new development to occur by paying for the installation of a well, booster station and water mains resulting in an expanded developable area and expanding the City's property tax base. In addition, the park improvements for the City park land will be a benefit to all citizens.

The applicant will finance the estimated cost of improvements at an estimated 9.0% interest rate. Should the tax increment revenues exceed the anticipated loan payments, the district debt would be retired early resulting in the full value of the property being returned to the tax rolls more quickly.

#### PROJECT PLAN SUMMARY

This plan establishes the total project costs, as well as the Tax Increment District funded costs.

#### Elements of the Project Plan

This Project Plan, as required by SDCL 11-9-13, will address the following elements:

- 1) Public Works and Other Improvements;
- 2) Economic Feasibility Study;
- 3) Project Costs;
- 4) Fiscal Impact Statement; and,
- 5) Financing Method Description.

Additionally, the following exhibits are offered:

- I. General Vicinity map;
- II. Tax Increment district Boundary Map;
- III. Map of Existing Zoning;
- IV. Map of Existing Land Use; and,
- V. Map of Public and Other Improvements.

The Statement of Method for Relocating Displaced Persons, as well as the Statement of Changes Needed in Master Plan, Building Codes and Ordinances do not apply to this Project Plan and have not been included in this document.

#### ELEMENTS OF THE PROJECT PLAN

#### 1. PUBLIC WORKS AND OTHER IMPROVEMENTS

The project plan includes costs associated with the construction of a well, a booster station, water mains and associated grading. In addition, the project plan also includes costs associated with park improvements to the City park land.

#### 2. ECONOMIC FEASIBILITY STUDY

<u>Current Valuation</u> – Tax Increment District Number Fifty Four is proposed for creation in accordance with SDCL 11-9-2 to 11-9-11. A vicinity map as well as a boundary map is attached. As of this date, the assessed valuation for the proposed district is established at \$413,934. In accordance with SDCL 11-9-20, certification of the base value will be requested from the South Dakota Department of Revenue following creation and approval of the district by the City Council.

ANTICIPATED CERTIFIED BASE VALUATION OF PROPERTY IN TID #54

\$413,934

#### Expected Increase in Valuation -

ESTIMATED FUTURE VALUATION OF PROPOSED DISTRICT

Estimated Assessed Value of District	\$	413,934
Estimated Assessed Value of project (year 20)	\$ 30	0,115,000
Other Anticipated Increases in Assessed Value	\$	0
Estimated Increase in Assessed Value of Land*	\$	0
Estimated Total Valuation (year 20)	\$ 30	0,528,934

<sup>\*</sup>For purposes of this Tax Increment District, the increase in land value is not included in these estimates. Any additional increase in value will pay off the loan earlier than anticipated.

#### Revenue Estimates from Tax Increments

The Plan anticipates 27 semi-annual payments over 14 years; however, because of the uncertainty associated with the development, the plan identifies a 20 year payback schedule. The potential negative short-term impact on the various taxing entities will be offset by the increase in the tax base in future years.

#### 2004 Tax Levies and Percentage of Total Levy

Taxing Entity	Tax Levy	Percentage of Total Levy
Rapid City Area School District	16.3984	67.7%
Pennington County	4.7281	19.5%
City of Rapid City	3.0595	12.7%
West Dakota Water District	0.0312	0.1%
Total Mill Levy	24.2172	100%

#### Anticipated 2004 Non-Agriculture Tax Rate: 0.0242172

The estimated tax increment available to pay for project costs in the Plan can be calculated by multiplying the anticipated tax rate by the increment in valuation. This calculation results in the following tax increments, which become available as taxes are paid for the applicable periods.

#### PROJECTED TAX INCREMENT INCOME

ASSESSMT DATE	YEAR TAXES <u>PAID</u>	PROJECTED INCREMENT IN VALUATION	TAX INCREMENT PAYMENTS
Nov 2005	2007	\$ 2,100,000	\$ 37,777
Nov 2006	2008	\$ 7,980,000	\$ 143,554
Nov 2007	2009	\$ 17,090,000	\$ 307,435
Nov 2008	2010	\$ 24,415,000	\$ 439,006

Nov	2011	\$ 30,115,000	\$ 541,744
2009 Nov	2012	\$ 30,115,000	\$ 541,744
2010 Nov	2013	\$ 30,115,000	\$ 541,744
2011 Nov	2014	\$ 30,115,000	\$ 541,744
2012 Nov	2015	\$ 30,115,000	\$ 541,744
2013 Nov	2016	\$ 30,115,000	\$ 541,744
2014 Nov	2017	\$ 30,115,000	\$ 541,744
2015 Nov	2018	\$ 30,115,000	\$ 541,744
2016 Nov			
2017	2019	\$ 30,115,000	\$ 541,744
Nov 2018	2020	\$ 30,115,000	\$ 541,744
Nov 2019	2021	\$ 30,115,000	\$ 541,744
Nov 2020	2022	\$ 30,115,000	\$ 541,744
Nov 2021	2023	\$ 30,115,000	\$ 541,744
Nov 2022	2024	\$ 30,115,000	\$ 541,744
Nov 2023	2025	\$ 30,115,000	\$ 541,744
Nov 2024	2026	\$ 30,115,000	\$ 541,744
202 <del>4</del>			

TOTAL TAX INCREMENT EXPECTED TO ACCRUE BY 12/31/26: \$ 9,595,676

NOTE: Tax increment payments are calculated using 100% of estimated future property valuation and 100% of expected 2004 mill levy.

#### 3. PROJECT COSTS

<u>Capital Costs</u> – The capital costs of \$2,650,000 for the Project Plan includes funding a well, a booster station, water mains and associated grading and park improvements.

<u>Financing Costs</u> – The financing costs for this Project Plan are dependent on the interest rate obtained. The applicant will provide all financing for the project costs and will be reimbursed by the tax revenue accruing from the increment. The anticipated interest rate that the applicant anticipates for this project is 9.0%. It is estimated that the financing costs will total \$2,456,456.72. If a lower interest rate is obtained, the project costs will be repaid more quickly and the property will be returned to the tax rolls sooner.

<u>Professional Service Costs</u> – No Professional service costs are anticipated in the Project Plan.

Relocation Costs – No relocation costs are anticipated in the Project Plan.

Organizational Costs – No organizational costs are anticipated in the Project Plan.

Contingency Costs – No contingency costs have been included in the Project Plan.

<u>Other Necessary and Convenient Payments</u> – No other necessary and convenient costs have been included in the Project Plan.

<u>Imputed Administrative Costs</u> – All Tax Increment District actions require municipal staff time to prepare and enact. The City shall be reimbursed on October 15, 2010, for its administrative costs in the amount of \$2050. However, in no case shall the City be reimbursed less than \$1 on October 15, 2010.

#### ESTIMATED PROJECT COSTS TO BE PAID BY THE TAX INCREMENT DISTRICT

Capital Costs:  Booster Station  Water Main in Bunker Drive  Water Main  Grading over water mains  Well  Park Improvements	\$ \$ \$ \$ \$	350,000.00 300,000.00
Professional Service Costs	\$	0
Financing Costs: Financing interest	\$2	2,456,456.72
Contingency Costs:	\$	0
Relocation Costs:	\$	0
Organizational Costs:	\$	0
Other Necessary and Convenient Costs:	\$	0
TOTAL	\$5	5,106,456.72
Imputed Administrative Costs* City of Rapid City	\$	2,050

<sup>\*</sup>The imputed administrative costs are interest-free, are not included in the total project costs, and are to be paid from the balance remaining in the TID #54 fund available to the City Finance Officer on October 15, 2010.

#### 4. FISCAL IMPACT STATEMENT

The impact on taxing entities can be derived from determining the tax increment anticipated during the life of the district. The true impact on taxing entities of the Plan is the increase in valuation of the property within the Tax Increment District. The taxing entities are only foregoing that income during the life of the district and will realize that income as soon as the debt from the project costs in the Plan is retired. The purpose of this Plan is to encourage that increase in valuation.

At first glance it may appear that the negative impact on the various entities is notable. But when it is considered that without the use of the Tax Increment Finance proposed in this plan it is very likely that there would be no increase in the taxable value of the property within this district or, at least, any increase would be significantly delayed, the impact can be considered truly positive.

**NET IMPACT ON TAXING ENTITIES** 

Year	Valuation	Schools	County	City	Water	Total
Paid	Increase					
2007	\$ 2,100,000	\$ N/A	\$ 7,366	\$ 4,797	\$ 37	\$ 37,777

2025	\$ 30,115,000	\$ N/A	\$105,640	\$ 68,801	\$ 541	\$ 541,744
2026	\$ 30,115,000	\$ N/A	\$105,640	\$ 68,801	\$ 541	\$ 541,744

<sup>\*</sup>The Plan anticipates 27 semi-annual payments over 14 years; however, the district may run up to 20 years to insure repayment of the project costs.

#### 6. FINANCING METHOD

The financing method to be used in funding the Plan is to be obtained by the applicant. The applicant will be responsible for any interest payments due for costs that are not available from Tax Increment District #54. If the tax increment revenues exceed the anticipated loan payments, the debt will be retired early.

<sup>\*\*</sup> N/A due to Economic Development Tax Increment District

The debt on the Tax Increment District Project Costs covered in the Plan will be retired by deposits made in the Tax Increment District as taxes are paid on the property in succeeding years. The City of Rapid City Finance Officer will make the disbursements from that fund in accordance with this Plan. A portion of this Tax Increment District is located within the boundaries of Revised Tax Increment District #36 Disc Drive and Tax Increment District #51 Kateland Subdivision. In establishing the projected tax income for Tax Increment District #54, no incremental tax income from the properties located in Tax Increment District #36 or Tax Increment District #51 was included. Any incremental tax income for the portion of this Tax Increment District within Tax Increment District Revised #36 and #51 will be allocated to Districts #36 and #51 until the districts are paid off in the proposed years proposed of 2015 and 2017 respectively. Subsequently, the incremental tax income will then be allocated to Tax Increment District #54.

According to SDCL 11-9-25, positive tax increments will be allocated to that fund until the debt from the project costs is retired or fifteen years following the last expenditure from the Project Plan whichever comes first. The final payment from this Plan is scheduled to be made on December 1, 2018; however, the district may run the full 20 years if necessary to insure repayment.

#### PROJECTED AMORTIZATION RATE

#### **TABLE**

	Payment	Beginning			Capital Int	Tax Inc		Loan	Cumulative
No.	Date	Balance	Interest	Total Due	Payment	Payment	Total Pay	Balance	Interest

#### REVISED PROJECT PLAN

March 2008

The Revised Project Plan is proposed to amend Capital costs, Professional Service costs and Other Necessary and Convenient costs. The Revised Project Plan adds the cost of a Water Reservoir and adds Professional Service costs by deleting the cost for a Water Well and deleting a portion of the project costs for the same professional service additions. The project cost of \$750,000 for the Water Well has been reduced to zero. The Other Necessary and Convenient Costs have increased by \$750,000 for a Water Reservoir. Professional Service Costs have increased by \$315,000. Capital costs for the Booster Station, Water Main in Bunker Drive, Water Main, Grading for the Water Main and the Reservoir have been reduced by a total of \$215,000. In addition, Capital costs for the Park Improvements have also been reduced by \$100,000. No other costs in the Project Plan have changed. All other costs remain the same. The total costs will not change, so the tax increment base will not be re-established.

The Tax Increment Financing Committee met on February 14, 2008 and on March 14, 2008 and approved the revised Project Plan. Staff has included the reallocation of the \$100,000 from the Park Improvements line item to the Professional Service Costs for Park Design and Construction Administration.

The proposed change would reallocate the project costs, removing \$750,000 from the Water Well and adding \$750,000 to the Necessary and Convenient costs for the Water Reservoir. In addition, the proposed change would reallocate the project costs, removing \$60,000 from the Booster Station, \$15,000 from the Water Main in Bunker Drive, \$35,000 from the Water Main, \$30,000 from the Grading – water mains, and \$75,000 from the Reservoir for at total of \$215,000 and adding Professional Service costs of \$60,000 for the Booster Station, \$15,000 for the Water Main in Bunker Drive, \$35,000 for the Water Main, \$30,000 for the Grading – water mains, and \$75,000 for the Reservoir for a total of \$215,000.

The proposed change would also reallocate \$100,000 of the \$500,000 designated for Park Improvements to Professional Service costs for Park Design and Construction Administration. This reallocation will remove \$100,000 from Park Improvements capital costs and add \$100,000 to Professional Service costs.

#### 2007 Tax Levies and Percentage of Total Levy

Taxing Entity	Tax Levy	Percentage of Total Levy
Rapid City Area School District	9.1400	54.7%
Pennington County	4.5700	27.4%
City of Rapid City	2.9600	17.7%
West Dakota Water District	0.0300	0.2%
Total Mill Levy	16.7000	100%

#### Anticipated 2007 Owner Occupied Tax Rate: 0.01670

The estimated tax increment available to pay for project costs in the Plan can be calculated by multiplying the anticipated tax rate by the increment in valuation. This calculation results in the following tax increments, which become available as taxes are paid for the applicable periods.

#### REVISED PROJECTED TAX INCREMENT INCOME

ASSESSMT DATE	YEAR TAXES <u>PAID</u>	PROJECTED INCREMENT IN VALUATION	TAX INCREMENT <u>PAYMENTS</u>	6 MONTH INCREMENT PAYMENTS

Nov	2025	\$ 30,115,000	\$ 502,920	\$251,460

2023

Nov 2026 \$ 30,115,000 \$ 502,920 \$251,460

2024

### TOTAL TAX INCREMENT EXPECTED TO ACCRUE BY 12/31/26: \$ 8,531,860

NOTE: Tax increment payments are calculated using 100% of estimated future property valuation and 100% of expected 2007 mill levy.

#### REVISED PROJECT COSTS

<u>Capital Costs</u> – The capital costs of \$2,650,000 for the Project Plan included funding a well, a booster station, water mains and associated grading and park improvements. The reduction of \$750,000 in capital cost reallocation includes reduction of the Water Well costs to zero. In addition, the reallocation will reduce the Booster Station by \$60,000, the Water Main in Bunker Drive by \$15,000, the Water Main by \$35,000, and the Grading – water mains by \$30,000. The reallocation will also reduce the Park Improvement line item by \$100,000.

<u>Financing Costs</u> – The financing costs for this Project Plan are dependent on the interest rate obtained. The applicant will provide all financing for the project costs and will be reimbursed by the tax revenue accruing from the increment. The anticipated interest rate that the applicant anticipates for this project is 9.0%. It is estimated that the financing costs will total \$2,456,456.72. If a lower interest rate is obtained, the project costs will be repaid more quickly and the property will be returned to the tax rolls sooner.

<u>Professional Service Costs</u> – No professional service costs are anticipated in the Project Plan. The professional service costs anticipated in the Revised Project Plan include the increased costs of \$60,00 - Booster Station, \$15,000 - Water Main in Bunker Drive, \$35,000 - Water Main, \$30,000 - Grading — Water Main, and \$75,000 - Reservoir. In addition, \$100,000 for Park Design and Construction Administration will be included.

Relocation Costs – No relocation costs are anticipated in the Project Plan.

Organizational Costs – No organizational costs are anticipated in the Project Plan.

Contingency Costs – No Contingency costs have been included in the Project Plan.

<u>Necessary and Convenient Payments</u> – No other necessary and convenient costs were included in the Project Plan. This line item has been increased by \$675,000 to include the cost for a Water Reservoir.

Imputed Administrative Costs – All Tax Increment District actions require municipal staff time to prepare and enact. The City shall be reimbursed on October 15, 2010, for its administrative costs in the amount of \$2,050. However, in no case shall the City be reimbursed less than \$1 on October 15, 2010.

#### ESTIMATED PROJECT COSTS TO BE PAID BY THE TAX INCREMENT DISTRICT

Capital Costs: Booster Station Water Main in Bunker Drive Water Main Grading over water mains Park Improvements			\$ \$ \$ \$	540,000.00 135,000.00 315,000.00 270,000.00 400,000.00
Professional Service Costs: Booster Station Water Main in Bunker Drive Water Main Grading – water mains Reservoir Park Design & Construction Administration	\$ 60,000 \$ 15,000 \$ 35,000 \$ 30,000 \$ 75,000	.00 .00 .00	\$	315,000.00
Financing Costs: Financing interest			\$2	2,456,456.72
Contingency Costs:			\$	0
Relocation Costs:			\$	0
Organizational Costs:			\$	0
Other Necessary and Convenient Costs: Water Reservoir			\$	675,000.00
TOTAL			\$5	5,106,456.72
Imputed Administrative Costs* City of Rapid City	\$	2,050		

The imputed administrative costs are interest-free, are not included in the total project costs, and are to be paid from the balance remaining in the TID #54 fund available to the City Finance Officer on October 15, 2010.

#### REVISED FISCAL IMPACT STATEMENT

The impact on taxing entities can be derived from determining the tax increment anticipated during the life of the district. The true impact on taxing entities of the Plan is the increase in valuation of the property within the Tax Increment District. The taxing entities are only foregoing that income during the life of the district and will realize that income as soon as the debt from the project costs in the Plan is retired. The purpose of this Plan is to encourage that increase in valuation.

At first glance it may appear that the negative impact on the various entities is notable. But when it is considered that without the use of the Tax Increment Finance proposed in

this plan it is very likely that there would be no increase in the taxable value of the property within this district or, at least, any increase would be significantly delayed, the impact can be considered truly positive.

**NET IMPACT ON TAXING ENTITIES**
