

Fire Code Review Committee
December 2, 2009 –

The Fire Code Review Committee met on December 2, 2008 and reviewed the amendments that have been adopted to the 2003 International Fire Code, Chapter 9 and the process that is in place to adopt and amend future codes.

The unanimous recommendations of this committee are as follows:

- 1) The 2003 International Fire Code, Chapter 9 as amended and adopted by ordinance, was found to be acceptable.

- 2) Every effort should be made to insure that the adopted building, fire, and mechanical codes and amendments are 100% compatible between the various codes. We believe that the best way to achieve this goal would be to have one standing committee that would oversee the adoption and amendment process for all codes relating to the new construction and/or remodeling of buildings in Rapid City.

Committee members: John Herr, Tim Behlings, Bob Brandt, Dave St. Pierre, Gerald Austin, Lloyd LaCroix, Matt Hamon, Tim Cheever, Tom Jaros.
