MEMORANDUM

TO: Robert Ellis

FROM: Paul Faiman

SUBJECT: Sidewalk Estimate

DATE: July 22, 2010

Robert,

Public Works was instructed to create a cost estimate to install sidewalk over the Signal Hill area from 5th Street to East Boulevard.

We've estimated that 3947 feet, of 4 foot wide property line sidewalk, for the **north** side of Signal Hill only, will cost approximately \$155,000. This includes type 'C' retaining wall and curb and gutter, as required, for approximately 1000 feet of the west third. This estimate considers contingency for miscellaneous issues and represents current contractor pricing. The installation of sidewalk is not feasible for the west third, of the **south** side of Signal Hill, as terrain issues and the presence of guardrail make it physically impossible, without major street reconstruction.

Thank you,

Paul Faiman
