Subject: Solar path lights

Ryan,

Powerplus is willing to install the Solar pathway lights as a donation to this great project. The amount of this donation is based on 2.5 man hours per light and approx \$50 per pole in material (wire, conduit, flex and misc material.)

So with 55 poles being installed the total amount donated to this project will be \$9,625.

Please let me know if you have further questions.

Respectfully,

Jeremy Anderson

Subject: "Light The Night" Bike Path Lighting Project

This is a letter of commitment from Black Hills Power to support the "Light The Night" Bike Path Lighting Project which includes the installation of 55 area street light fixtures along the bike path in Rapid City. Black Hills Power will support the project through in-kind contribution that involves the digging of holes for the 55 fixtures. The in-kind value has not been calculated due to not having enough information to determine the value for digging holes.

We look forward to partnering with the City of Rapid City and the business partners that also support this project.

Sincerely,

Mutch Usera
Director, Energy Services & External Affairs
