

10/30/2014

Karl Jegeris, Chief of Police  
300 Kansas City Street, Suite 200  
Rapid City, SD 57701

Dear Chief Jegeris,

I hope this letter finds you well. We are very pleased with the relationship between BAIR Analytics and your department. We hear great things from Stacey and trust that she is providing your department with the analytical services that you need. Your current contract, which was signed on October 4, 2013, is up for renewal December 31, 2014. We will not be increasing the contract rate for this next year.

This means the cost of your embedded Pattern Analyst will remain at \$70,000 per year. We will continue to invoice your department at the same interval we have done so for the past year. This letter will serve as an addendum to our current contract, keeping all agreements in place, and will simply extend the dates from **January 1, 2015 through December 31, 2015**.

Additionally, BAIR Analytics has moved to a new partnership with Google. We will continue to support your embedded analyst with spatial analysis techniques, but this will now be completed through various Google GIS platforms that we will provide to the analyst.

We look forward to another great year of working with you and the Rapid City Police Department. Please let us know if there is every anything we can do to enhance the analytical services that we provide you.
