**Subject:** Bee keeping on April 20th City Council agenda

Ritchie:

Good afternoon! I am emailing regarding the proposed ordinance to allow beekeeping in the city limits which will have first reading at the April 20th meeting. I realize that you aren't my council member, but I thought that it would be worthwhile to share my request with you.

I request that the City Council amend the proposed ordinance to restrict beekeeping to detached, single family-homes.

We still own our townhome in Woodridge and the proximity between the townhomes is too close and the lots too small for beekeeping.

I agree that the bees are important and support individuals who live in detached, single-family homes having the option to keep them. The slight amendment I am requesting to the proposed ordinance would to ensure that beekeeping isn't allowed in areas where the proximity to other homes may infringe on other, non-beekeeping homeowners.

I appreciate your consideration of my request,

Katie LeClair
