REPORT BY	Vicki L. Fisher

#### RECOMMENDATION:

Staff recommends that the Initial and Final Development Plan - Planned Residential Development be continued to the **February 7**, 2002 Planning Commission meeting in order to be heard in conjunction with the associated Preliminary and Final Plat.

#### GENERAL COMMENTS:

**This item has been continued from the January 10, 2001 Planning Commission meeting. This Staff Report has been revised as of January 15, 2002. All revised or added text is shown in bold text.** The applicant is requesting approval of an Initial and Final Residential Development Plan to allow seven single family residential lots on the subject property. The applicant has also submitted a Preliminary and Final Plat proposing to

---

subdivide the property into a seven residential lot development. (See companion item #01PL110.) **In addition, the applicant has submitted a Variance to the Subdivision Regulations to allow a sidewalk on one side of the street. (See companion item #02SV001.)** The proposed development will be known as Vista Lake Subdivision. Currently, an unoccupied building is located on proposed Lot 1. At one time the building was the site of the Johnson Siding Volunteer Fire Department.

On November 16, 1998, a Layout Plat was approved to create an approximate one acre lot in the southeast corner of the subject property. In addition, a Master Plan was submitted identifying that the remaining balance would eventually be subdivided into seven lots ranging in size from .5 acres to 11.8 acres. The Master Plan identified one approach located along Jackson Boulevard extending to form an approximate 500 foot long cul-de-sac to serve as access to the property.

On July 16, 2001, the City Council approved a Preliminary and Final Plat to subdivide a four acre portion of the subject property into one lot. The applicant is now proposing to replat the four acre lot as a part of the proposed Vista Lake Subdivision as shown on Preliminary and Final Plat 01PL110.

#### STAFF REVIEW:

Staff is recommending that the associated Preliminary and Final Plat be continued to the **February 7, 2002 Planning Commission meeting to allow the applicant to submit additional information. On January 4, 2002, staff met with the applicant to discuss the on-going issues relative to the associated plat. It was identified that additional information including final geotechnical information relating to the cut, fill and retaining wall stability and design information relating to the proposed road including the geotechnical scope of services, a site distance evaluation demonstrating compliance with the minimum 14.4 foot American Association of Highway and Transportation Officials (AASHTO) requirement, construction and design plans for a concrete retaining wall to be located in the Jackson Boulevard right-of-way, documentation identifying maintenance responsibility for the proposed road and full cross-sections of the street, fill slopes, drainage areas and conveyances and sewer and water must be submitted for review and approval. To date, the information has not been submitted. As such, staff is recommending that the Initial and Final Planned Residential Development be continued to the February 7, 2002 Planning Commission meeting to be heard in conjunction with the associated Preliminary and Final Plat.**
