ITEM 42

GENERAL COMMENTS: This property is located south of Catron Boulevard and west of the proposed 5th Street extension. The subject property is zoned Suburban Residential District by Pennington County. The adjacent land located to the north is zoned Highway Service District by Pennington County. The adjacent land located to the south, east and west is zoned General Agriculture District by Pennington County. The adopted Comprehensive Plan for Rapid City identifies the subject property as appropriate for development as Medium Density Residential land uses with a Planned Residential Development designation.

The South Robbinsdale Neighborhood Future Land Use Plan was originally adopted by the City Council on August 18, 1999. The applicant has made several requests for changes to this plan since that adoption of the Plan. The Planning Commission held a Special Planning Commission meeting in the neighborhood on December 12, 2001 to accept comments on the requests. Subsequently, the Planning Commission and City Council denied the applicant's requests. The Future Land Use Committee's proposed revisions to the Adopted Plan were approved by the City Council on January 21, 2002. The applicant again submitted extensive changes to the South Robbinsdale Neighborhood Land Use Plan. Several meetings occurred with the applicant, staff and the Future Land Use Committee. The applicant and Future Land Use Committee agreed on a plan for the area. Therefore, the request for changes to the Comprehensive Plan were approved in part and denied in part at the April 1, 2002 City Council Meeting in accordance with the plan as agreed upon by the applicant and Future Land Use Committee. Approval of this item moves towards the adoption of the remaining revisions to the Comprehensive Plan.

STAFF REVIEW: The adopted Comprehensive Plan is a framework within which development and rezoning proposals are measured and evaluated. The plan is intended to guide the orderly growth of the community.

The applicant has requested the removal of the Planned Development Designation. Planned Development Designations are created to:

1. Provide optional methods of land development to encourage imaginative urban design;
2. Allow a mix of land uses which are compatible and well integrated, but which would otherwise be discouraged by conventional zoning regulations;
3. Provide an adequate review procedure which will promote the proper development of those areas which may be environmentally sensitive because of facts such as steep slopes and unusual topography;
4. Promote compatibility with adjacent land use and available public facilities in terms of such factors as intensity of use, density and traffic circulation.

The Future Land Use Committee met with the applicant on March 15, 2002 to review the applicant's current request. The Future Land Use Committee and the applicant agreed that

a Planned Development Designation should be required on a 550 foot corridor along either side of Catron Boulevard. The Future Land Use Committee recommends that the Medium Density Residential land use is appropriate for this area. The Planned Development designation is removed as it is located beyond the 550 foot corridor as agreed upon by the Future Land Use Committee and the property owner.

Staff notes that comprehensive plan amendments do not require direct notification of neighboring property owners; however, South Dakota Codified Law requires that plan amendments be advertised in a local newspaper. The notification requirement has been met.
