No. 02SV016 - Variance to the Subdivision Regulations to waive the requirement for curb and gutter, street light conduit, dry sewer and water **ITEM 31**

Final Plat request for proposed Tract A of Murphy Ranch Estates (File # 02PL029). The plat request has been submitted to plat a 12.36 acre lot out of a larger tract of land in order to transfer title of the property. The applicant has submitted this Subdivision Regulations Variance request to waive the requirement to install curb and gutter, street light conduit, dry sewer and water along the Long View Road frontage.

STAFF REVIEW: Staff has reviewed the proposed Subdivision Variance request and is recommending denial of the request to waive the requirement to install curb and gutter, sidewalks, water, dry sewer and street lights along Longview Drive where it abuts the lot frontage in the associated Preliminary and Final Plat. Subdivision Variances to the road improvement standards have generally only been granted when there is no increase in the density of dwelling units resulting from the subdivision. The associated Preliminary and Final Plat proposes to increase the density of the subdivision by one dwelling unit. The subject property is located outside of the Rapid City Corporate Limits; therefore, the required improvements can not be secured with a Waiver of Right to Protest a future assessment project. The Pennington County Highway Department has indicated though the proposed 12.36 acre lot will have a minimal impact on Long View Road; the future subdivision of the property will have a significant negative impact on Long View Road. For these reasons, Staff is recommending that the road section be designed and constructed in accordance with City standards. On May 10, 2002 the applicant submitted a master plan in the form of a Layout Plat (file #02PL049). Staff has reviewed the Layout Plat and noted several major issues. **Staff is recommending that this Preliminary and Final Plat request be continued to the August 8, 2002 Planning Commission meeting to allow the applicant time to submit the additional required information for further review of the associated Layout Plat. The applicant has requested that the Subdivision Regulations Variance be continued to August 8, 2002 Planning Commission meeting to be heard in conjunction with the associated Preliminary and Final Plat.**

As of this writing, the receipts from the required certified mailing have been returned by the applicant. Staff has received three calls regarding this request. The callers have all expressed concern with the adequacy of Long View Road as further development occurs in this area.
