- When possible we try to schedule appointments with outreach clients. We do however have some walk-in traffic. A typical appointment will last between ½-2 hours.
- It is unusual for all case managers to be in the building at one time. They do a lot of work in the courthouse, public safety building, and other locations.
- Case Managers also do a lot of their client contact and support over the phone.
- Support groups that are open to outreach clients are held in the evening and run for 1 ½ hour.
