No. 02PD036 - Planned Development Designation

ITEM 30

REPORT BY

Vicki L. Fisher

RECOMMENDATION:

Staff recommends that the Planned Development Designation be approved with the condition that no sign permits or billboards shall be allowed unless approved as part of a Final Development Plan.

General Comments:

On July 12, 2002 the applicant submitted a Planned Development Designation request on the above legally described property. On August 8, 2002, the Planning Commission approved the request in conjunction with a Comprehensive Plan Amendment to change the future land use designation from General Commercial to General Commercial with a Planned Commercial Development on the property. (See companion item 02CA043.) However, the legal description of the subject property, as submitted by the applicant, was incorrect. (The section, township and range information was not included in the legal description.) Staff has corrected the legal description and has brought the item back before the Planning Commission for review and approval.

The property is a part of a proposed 86 acre development to be known as "Tower Ridge". On June 3, 2002, the City Council approved several Rezoning requests, Planned Development Designation requests and Comprehensive Plan Amendments for the 86 acre development. On July 15, 2002, the City Council approved a Preliminary Plat for Phase One of the development. However, the lot lines as shown on the plat document do not coordinate with the previously approved Rezoning, Planned Development and Comprehensive Plan Amendment boundaries. As such, the applicant has submitted several Comprehensive Plan Amendments, Rezoning requests and Planned Development Designation requests for Phase One in order to align the above referenced boundaries with the proposed lot line(s) as shown on the plat document.

STAFF REVIEW:

The additional review provided by the Planned Commercial Development will insure that any possible adverse impact of future development on the site will be adequately mitigated. The primary reason for the recommended Planned Development Designation is the potential access concerns and the location of the property adjacent to an existing and proposed residential land use area. In addition, the property is located in close proximity to U.S. Highway 16, a major entrance into the community. The Planned Development Designation will officially identify this property as a future Planned Commercial Development.

The Planned Development Designation will provide an opportunity to mitigate possible impacts on the residential neighborhood(s). In particular, traffic, lighting, noise and visual impact concerns must be addressed and mitigated as a part of the review for the Planned Commercial Development.

The Planned Development Designation will allow the City to adequately address site specific issues at the time a development proposal is prepared. According to the Planned

Development Designation Ordinance, no building permits will be permitted until such time as a Final Development Plan is approved.

As of this writing, the receipts from the certified mailing have not been returned nor has the sign been posted on the property. Staff will notify the Planning Commission at the September 26, 2002 Planning Commission meeting if these requirements have not been met. Staff has not received any calls or inquiries regarding this proposal.
