LOCATION	North west of U.S. Highway 16 and Moon Meadows Road
EXISTING ZONING	Medium Density Residential /General Commercial with Planned Development Designation
SURROUNDING ZONING	
North:	(County)
South:	(County)
East:	General Commercial w/Planned Development Designation
West:	Suburban Residential District (County)
PUBLIC UTILITIES	To be extended
DATE OF APPLICATION	09/13/2002
REPORT BY	Vicki L. Fisher

RECOMMENDATION:

Staff recommends that the Preliminary and Final Plat be continued to the November 7, 2002 Planning Commission meeting to allow the applicant to submit additional information.

GENERAL COMMENTS:

The applicant has submitted a Preliminary and Final Plat to subdivide the subject property into three lots to be known as Lots 2 thru 4 of the Moon Ridge Subdivision. The property is located directly north and south of Moon Meadows Drive and directly west of U. S. Highway 16 and is currently void of any structural development.

No. 02PL095 - Preliminary and Final Plat

ITEM 13

On September 16, 2002, the City Council approved a Layout Plat to subdivide the subject property into three lots as shown on this plat. On September 3, 2002, the City Council approved a Layout, Preliminary and Final Plat to create a 2.755 acre parcel located southwest of the subject property as Lot 1 of the Moon Ridge Subdivision.

STAFF REVIEW:

Staff has reviewed the Preliminary and Final Plat request and has noted the following considerations:

Section Line Highway:

During the review of the associated Layout Plat, staff identified that a section line highway is located along the north lot line of the property. Prior to Preliminary Plat approval, the section line highway must be improved to City Street standards or a Variance to the Subdivision Regulations must be obtained to waive the street improvements or the section line highway must be vacated. The northern half of the section line highway is located on an adjacent property under different ownership from the subject property. The Subdivision Regulations states that "...where there exists a dedicated or platted half-street adjacent to the tract to be subdivide, the other half shall be platted. No new half-streets shall be permitted". Vacating only that portion of the section line highway located on the subject property will create a half-street. As such, the entire section line highway must be vacated or a Variance to the Subdivision Regulations must be obtained. If the applicant seeks to vacate a portion of the section light right-of-way, the adjacent property owner will need to concur in the request. Prior to Planning Commission approval of the Preliminary Plat, the section line highway issue must be addressed as identified or construction plans for the street must be submitted for review and approval.

Major Street Plan:

The Major Street Plan identifies a collector road to be constructed through the northwest corner of the subject property. The collector road will serve to connect Catron Boulevard with Moon Meadows Drive. Prior to Preliminary Plat approval by the Planning Commission, construction plans for the collector road must be submitted for review and approval or the Major Street Plan must be amended to eliminate and/or relocate the collector road.

Water and Sewer:

The Engineering Division has indicated that Moon Meadows Drive is currently constructed to City street standards with the exception of extending City sewer and water within the road right-of-way. The Engineering Division has also indicated that a preliminary utility master plan exists for this area showing the extension of City sewer and water to the subject property. The Preliminary and Final Plat for Lot 1 of the Moon Ridge Subdivision was approved with the stipulation that the applicant post surety for the design and construction of City sewer and water to proposed Lot 1. Any additional platting and/or replatting of Lot 1 or other properties within the area require that utility plans be submitted showing the extension of City sewer and water to the property(s) or a Variance to the Subdivision Regulations to waive the requirement must be obtained. As such, this plat requires that complete utility

ITEM 13

plans be submitted for review and approval or a Subdivision Regulations Variance be obtained as identified. Staff is recommending that the Preliminary Plat be continued to allow the applicant to address the above referenced issue.

Zoning:

Currently, a portion of proposed Lot 1 and Lot 3 are zoned Medium Density Residential District with the balance of the lots zoned General Commercial District with a Planned Development Designation. Proposed Lot 4 is currently zoned General Commercial District with a Planned Commercial District and proposed Lot 2 is zoned No Use District. The applicant should be aware that development and/or redevelopment of proposed Lots 1 and 3 will be limited to those permitted uses within each zoning district as identified on the lot(s). In addition, a building permit can not be issued for proposed Lot 2 until the property is rezoned from No Use District. The Rapid City Area 2000 Future Land Use Comprehensive Plan identifies the appropriate use of Lot 2 as General Commercial for the first 50 feet adjacent to U.S. Highway 16. The balance of the lot is identified as appropriate for "Limited Agriculture, Agriculture and Forest use(s)". The applicant should also be aware that any additional commercial zoning of the subject property may require additional road networking through the subject property.

Plat Labeling:

The Emergency Services Communication Center has indicated that the plat must be revised to read "Moon Meadows Drive" in lieu of "Moon Meadows Road" as currently shown. In addition, the plat must be revised to show the State designation for the S. D. Highway 16 right-of-way as "S. Highway 16". Staff is recommending that the plat be revised as identified prior to Final Plat approval by the City Council.

Staff is recommending that the Preliminary and Final Plat be continued to the November 7, 2002, Planning Commission meeting to allow the applicant to submit additional information as identified above.
