Engineering Division Recommendations:

1. Any additional platting adjacent to this portion of Birkdale Road shall require that the street be improved to meet City street design standards.

GENERAL COMMENTS:

The applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to install curb, gutter and sidewalk(s) along the northern portion of Birkdale Road. In addition, the applicant has submitted a Preliminary and Final Plat to subdivide the subject property to create four residential lots and an outlot. The applicant has also submitted a Planned Development Designation for the four residential lots to allow the construction of townhomes on this portion of the subject property. The applicant has indicated that the four residential lots will eventually be replatted into townhome lots. In addition, the applicant has submitted a Rezoning request to change the zoning of the four residential lots from General Agriculture District to Low Density Residential District. (See companion items #02PL114, 02PD063 and 02RZ065.)

The property is located north of Muirfield Drive and is a part of the Red Rock Estates Subdivision. A sewer lift station has recently been constructed on the outlot. The proposed residential lots are currently void of any structural development.

STAFF REVIEW:

During the review of the Variance to the Subdivision Regulations, staff identified the following considerations:

Road Design: The applicant has indicated that curb, gutter and sidewalks will be constructed along that portion of Birkdale Road located adjacent to the proposed residential lots. The northern portion of Birkdale Road will serve as access to the sewer lift station currently located on the outlot. As such, staff is recommending that the Variance to the Subdivision Regulations be approved for the northern portion of Birkdale Road. Any additional platting of residential lots adjacent to this portion of Birkdale Road will require that the street be improved to meet City street design standards.

Legal Notification Requirement: As of this writing, the receipts from the certified mailings have not been returned. Staff will notify the Planning Commission at the November 21, 2002 Planning Commission meeting if this requirement has not been met. Staff has not received any calls or inquiries regarding this proposal.
