Lots 3,4 & 9, Block 2, CD Rounds Subdivision, Section 33, T2N, R7E, BHM

I am unable to attend the meeting December 18, 2003 regarding the SDCL review to allow for the construction of a public utility petitioned by Fisk Land Surveying on behalf of Mega Com. I would like to express my concern regarding this project. My understanding of the findings within the scientific community is that there is not consensus or definitive information regarding the emission of low levels of radiation produced by micro cell towers. Based on this information, I would ask you to deny the proposed petition because of the close proximity of the proposed micro cell tower to Children's House Montessori School and the children attending school there.

Respectfully,

Janell Jewett
