---

the Comprehensive Plan to change the future land use designation on a 10.390 acre parcel from General Agriculture to Light Industrial with a Planned Light Industrial Development be approved.

GENERAL COMMENTS: This undeveloped property contains approximately 10.390 acres and is located along the east boundary of North Elk Vale Road north of U.S. Interstate 90. Upon approval of the related annexation, this property will be zoned No Use District.

In addition to this Amendment to the Comprehensive Plan, the applicant has submitted fifteen companion applications including: A Petition to Annex, Preliminary Plat, Subdivision Variance, five Rezoning applications, three Planned Development applications, and four Comprehensive Plan Amendments (See companion items: 04PL020, 04SV014, 04AN002, 04RZ008, 04PD014, 04RZ009, 04CA005, 04PD015, 04RZ010, 04CA007, 04RZ011, 04CA008, 04RZ012, 04CA009, and 04PD016).

STAFF REVIEW: The adopted Comprehensive Plan is a framework within which development and rezoning proposals are measured and evaluated. The plan is intended to guide the orderly growth of the community. In order for the plans to remain viable and to keep pace with a changing market place, periodic adjustments to reflect changing conditions will be required.

The Comprehensive Plan identifies the subject property as appropriate for general agriculture land use(s). The applicant is proposing to annex the subject property and subsequently, develop the property with a mix of uses as well as extend City sewer and water to the site. As the City continues to expand, new areas of development for residential and commercial uses are needed. On February 13, 2004, the Future Land Use Committee met to review the proposal for Elk Vale Park, a development that includes approximately 140 acres. Elk Vale Park includes a mobile home park, a commercial area, a light industrial area, and a public area. The industrial area is proposed to be mini storage for the mobile home park and the general public. The subject property is within the 100 year federally designated floodplain. A Planned Development Designation has been submitted in conjunction with the Rezoning and Comprehensive Plan Amendment. This will allow the City to adequately address any site specific issues prior to development. Due to the existing and proposed land uses on the surrounding properties, the Committee recommended approval of an Amendment to the Comprehensive Plan to change the land use on the subject property from General Agriculture to Light Industrial with a Planned Light Industrial Development. Comprehensive Plan Amendments on several other parcels within the Elk Vale Park development were also recommended for approval to change from general agriculture to public, general commercial and mobile home residential land use(s).

The Future Land Use Committee recommends that the Amendment to the Comprehensive Plan to change the land use designation on a 10.390 acre parcel from General Agriculture to Light Industrial with a Planned Light Industrial Development be approved.
