---

change the land use from General Agriculture to Mobile Home Residential with a Planned Residential Development with the following stipulation:

1. No building permits or sign permits shall be issued for the property until such time as an Initial and Final Development Plan has been approved for the property.

**GENERAL COMMENTS:** This undeveloped property contains approximately 64.333 acres and is located along the east boundary of North Elk Vale Road north of U.S. Interstate 90. Upon approval of the related annexation, this property will be zoned No Use District.

In addition to this Planned Development application, the applicant has submitted fifteen companion applications including: a Petition to Annex, Preliminary Plat, Subdivision Variance, five Rezoning applications, two Planned Development applications, and five Comprehensive Plan Amendments (See companion items: 04PL020, 04SV014, 04AN002, 04CA005, 04RZ008, 04RZ009, 04CA006, 04PD015, 04RZ010, 04CA007, 04RZ011, 04CA008, 04RZ012, 04CA009, and 04PD014).

**STAFF REVIEW:** According to the Rapid City Zoning Ordinance, a Planned Development Designation is a procedure by which property can be officially designated as a future Planned Residential Development, Planned Unit Development, Planned Commercial Development, or Planned Light Industrial Development prior to approval of an Initial or Final Development Plan. One of the factors established by the Ordinance in determining whether a property should be a Planned Development Designation is – *“When the location of the property is such that its development may have unusually significant impacts upon public infrastructure or surrounding developed areas.”*

The applicant has indicated that the development of Elk Vale Park will include a mobile home park. The subject property is located along North Elk Vale Road, a major arterial street and corridor into the City. As development of the mobile home park occurs, there may be potential impacts on the surrounding areas, such as increased residential traffic. A Planned Residential Development will serve as a tool to mitigate these impacts. The subject property is located in the 100 year federally designated floodplain. The flood plain issues can also be addressed through the Planned Residential Development. The Planned Development Designation will allow the petitioners to acquire Mobile Home Residential zoning for the property but will also allow the City to adequately address any site-specific issues prior to development.

The Staff is requesting this Planned Development Designation be approved contingent upon the approval of the associated Rezoning from No Use District to Mobile Home Residential District and in conjunction with the Amendment to the Comprehensive Plan to change the land use from General Agriculture to Mobile Home Residential with a Planned Residential Development.

As of this writing, the required planned development sign has not been posted on the property and the receipts from the certified mailing have not been returned. Staff will notify
