STAFF REVIEW: Staff has reviewed the proposed SDCL 11-6-22 Review as it relates to the applicable provisions of the Rapid City Municipal Code and has noted the following issues:

Street Reconstruction: The proposed intersection reconstruction will consist of widening the public right-of-way, installing new pavement, curb, gutter, and public utilities. Staff noted that the purpose of the project is to improve the street connectivity and intersection functionality. Staff also noted that the project will improve the existing water, sewer, and drainage utilities in the area. The proposed construction complies with the Rapid City Municipal Code and the Street Design Criteria Manual.

Staff recommends approval of the SDCL 11-6-22 Review.
