RECOMMENDATION: Staff recommends that the Amendment to the Comprehensive Plan by changing the future land use designation on an approximate 1.9 acre parcel from Medium Density Residential with a Planned Residential Development to General Commercial with a Planned Commercial Development be continued to the **October 7, 2004** Planning Commission meeting at the applicant's request.

GENERAL COMMENTS: **This staff report has been revised as of September 10, 2004. All revised and/or added text is shown in bold print.** This undeveloped property contains approximately 1.9 acres and is located approximately 220 feet east/southeast of the southeast corner of the intersection of Luna Avenue and Spruce Street. The property is zoned Medium Density Residential District and General Agriculture District. The properties located north and east of the subject property are zoned General Agriculture District. The properties located south of the subject property are zoned Medium Density Residential District and General Agriculture District. The property located west of the subject property is zoned Medium Density Residential District.

The subject property is a portion of a larger parcel that is proposed to be developed for commercial uses. The applicant has submitted a request to rezone the subject property from Medium Density Residential District to General Commercial District (04RZ044) and General Agriculture District to General Commercial District (04RZ039) in conjunction with this Amendment to the Comprehensive Plan. In addition to this application for a Comprehensive Plan Amendment, the applicant has submitted two additional requests for a Comprehensive Plan Amendment to change the future land use designation on property from Medium Density Residential with a Planned Residential Development to General Commercial with a Planned Commercial Development (04CA033) and from Medium Density Residential to General Commercial with a Planned Commercial Development (04CA038),

STAFF REVIEW: The adopted Comprehensive Plan is a framework within which development and rezoning proposals are measured and evaluated. The plan is intended to guide the orderly growth of the community. In order for the plans to remain viable and to keep pace with a changing market place, periodic adjustments to reflect changing conditions will be required.

The applicant has requested to meet with the Future Land Use Committee and requests that this application be continued. Therefore, staff recommends that this application be continued to the September 23, 2004 Planning Commission meeting to allow the Future Land Use Committee to meet with the applicant. **The Future Land Use Committee met with the applicant on September 10, 2004. Due to the length of the meeting, the Committee will meet again on September 17, 2004 to review the application. Staff recommends that this application be continued to the October 7, 2004 Planning Commission meeting to allow the Future Land Use Committee to review the**
