| West:                      | General Agriculture District (Pennington County)  |
| PUBLIC UTILITIES           | City sewer and water  |
| DATE OF APPLICATION        | 6/9/2005  |
| REVIEWED BY                | Vicki L. Fisher / David L. Johnson  |

RECOMMENDATION:

Staff recommends that the 11-6-19 SDCL Review to allow the construction of a public building on public land be approved with the following stipulations:

1. Prior to Planning Commission approval, the applicant shall submit a revised site plan for review and approval. In particular, the revised site plan shall show LaCrosse Street located along the east side of the lift station in compliance with the Major Street Plan or a Comprehensive Plan Amendment to the Major Street Plan shall be submitted for review and approval relocating LaCrosse Street as shown on the applicant's site plan;
2. Prior to Planning Commission approval, the site plan shall be revised to show access from LaCrosse Street in lieu of Country Road or an Exception to the Street Design Criteria Manual shall be obtained to allow access from a street which is not the lesser order street;
3. Prior to Planning Commission approval, the applicant shall submit elevations of the proposed fence for review and approval;

---

4. A building permit shall be obtained prior to any construction and a Certificate of Occupancy shall be obtained prior to occupancy;
5. Prior to issuance of a building permit, a utility plan shall be submitted identifying the location of water services and fire hydrants as well as private utility service lines to the proposed lift station site;
6. Prior to issuance of a building permit, a grading and drainage plan shall be submitted for review and approval;
7. Prior to the issuance of a building permit, all necessary changes shall be made to the construction plans as identified on the redlined drawings. In addition, the redlined drawings shall be returned to the Development Service Center Division; and,
8. A minimum of two parking spaces shall be provided with one of the spaces being "van" accessible handicap space. In addition, all provisions of the Off-Street Parking Ordinance shall be continually met;
9. A minimum of 39,232 landscaping points shall be provided. The landscaping plan shall comply with all requirements of the Zoning Ordinance. In addition, all landscaping shall be continually maintained in a live vegetative state and replaced as necessary;
10. The proposed structure shall conform architecturally to the plans and elevations and color palette submitted as part of this SDCL 11-6-19 Review.

GENERAL COMMENTS:

The applicant has submitted a SDCL 11-6-19 Review to allow for the construction of a lift station on the subject property.

The subject property is located east of W. Nike Road, on the south side of Country Road. Currently, the property is void of any structural development.

South Dakota Codified Law 11-6-19 states that "...whenever any such municipal council has adopted a comprehensive plan, then no street, park or other public way, ground, place, space, no public building or structure, no public utility, whether publicly or privately owned, if covered by the comprehensive plan or any adopted part thereof, shall be constructed or authorized in the municipality or within its subdivision jurisdiction until and unless the location and extent thereof shall have been submitted to and approved by the Planning Commission". The proposed lift station will be a public utility and the property is identified as a part of the Rapid City Comprehensive Plan requiring that the proposed lift station be reviewed and approved by the Rapid City Planning Commission.

STAFF REVIEW:

Staff has reviewed the SDCL 11-6-19 and has noted the following considerations:

Design Features: The applicant has submitted an elevation for the proposed operations building identifying that the structure will be a one story brick building with pre-finished metal facia and a matching peaked roof. In addition, the building will be earth tone in color. Staff is recommending that the proposed structure conform architecturally to the plans and elevations and color palette submitted as part of this SDCL 11-6-19 Review.

Staff is also recommending that a building permit be obtained prior to any construction and a

---

Certificate of Occupancy be obtained prior to occupancy.

Parking: The proposed use requires that a minimum of two parking spaces be provided. In addition, one of the spaces must be "van" handicap accessible. The site plan identifies four parking stalls with one of the spaces being "van" handicap accessible. Staff is recommending that a minimum of two parking spaces be provided with one "van" accessible handicap space and that all provisions of the Off-Street Parking Ordinance be continually met.

Drainage and Grading Plan: A drainage and grading plan must be submitted for review and approval in compliance with the drainage basin plan. In particular, the drainage plan must include drainage evaluations demonstrating that run-off will not exceed re-developed discharge rates or on-site and/or off-site facilities to mitigate flows must be provided. The grading plan must also demonstrate that sediment and erosion control best management practices are provided to prevent sediment discharge from the site until final stabilization is accomplished. Staff is recommending that a drainage and grading plan be submitted as identified prior to issuance of a building permit or the start of construction.

LaCrosse Street: The site plan identifies LaCrosse Street located west of the subject property with an approximate 50 foot wide unusable strip of land located between the lift station site and the street. The Major Street Plan identifies LaCrosse Street located along the east lot line of the subject property. As such, staff is recommending that prior to Planning Commission approval, the applicant submit a revised site plan for review and approval showing LaCrosse Street located along the east side of the lift station in compliance with the Major Street Plan or a Comprehensive Plan Amendment to the Major Street Plan must be submitted for review and approval relocating LaCrosse Street as shown on the applicant's site plan. (Please note that the City Council has recently approved a Layout Plat for Freeland Meadows Subdivision located directly north of the subject property showing LaCrosse Street located in compliance with the Major Street Plan.)

Country Road is classified as a principal arterial street and LaCrosse Street is classified as a minor arterial street as per the Major Street Plan. The site plan identifies access to the lift station site from Country Road. As such, staff is recommending that prior to Planning Commission approval, the site plan be revised to show access from LaCrosse Street in lieu of Country Road or an Exception to the Street Design Criteria Manual must be obtained to allow access from a street which is not the lesser order street

Staff is recommending that the SDCL 11-6-19 Review be approved with the stipulations as identified above.
