GENERAL COMMENTS:

The applicant has submitted an Initial and Final Planned Residential Development to allow 22 townhomes to be constructed on the subject property. In addition, the applicant has also submitted a Variance to the Subdivision Regulations to reduce the pavement width along Sunny Springs Drive from 27 feet to 24 feet. The applicant has also submitted a Layout Plat to subdivide the subject property into 22 townhome lots leaving two non-transferable unplatted balances. In addition, the applicant has submitted a Comprehensive Plan Amendment to the North Rapid Neighborhood Area Land Use Plan to change the land use designation from Park Forest to Medium Density Residential with a Planned Residential Development. The applicant has also submitted a Rezoning request to change the zoning designation of the subject property from General Agriculture District to Medium Density Residential District. In addition, the applicant has submitted a Planned Development Designation for the subject property. (See companion items 06PL132, 06PD061, 06CA024, 06RZ028 and 06SV050.)

The property is located southwest of the intersection of Harmony Heights Lane and Sunny Springs Drive. Currently, a single family residence is located on the property.

District. As noted above, the applicant has submitted a Rezoning request to change the zoning designation from General Agriculture District to Medium Density Residential District on the eastern portion of the property. In addition, during the review of the Preliminary Plat, staff noted that the plat document must be revised to show a minor arterial street along the south lot line and a minor arterial street extending from S. Plaza Drive across the southwest corner of the subject property as per the Major Street Plan or a Comprehensive Plan Amendment to the Major Street Plan must be obtained eliminating and/or relocating the street(s). In addition, Sunny Spring Court must be extended to the south lot line as required by the Subdivision Regulations or an alternate street connection must be provided to the south in order to ensure street and utility connectivity between properties. The Layout Plat and the Initial and Final Residential Development Plan could significantly change with the addition of these street connections. As such, staff is recommending that this item be continued to the October 5, 2006 Planning Commission meeting to allow the applicant to address the street networking issue.

Legal Notification Requirement: The receipts from the certified mailings have not been returned. Staff will notify the Planning Commission at the September 7, 2006 Planning Commission meeting if this requirement is not met. Staff has not received any calls or inquires regarding this proposal.
