DATE OF APPLICATION	10/13/2006
REVIEWED BY	Vicki L. Fisher / Mary Bosworth

RECOMMENDATION:

Staff recommends that the Preliminary Plat be continued to the **December 7, 2006** Planning Commission meeting **to allow the applicant to submit additional information.**

GENERAL COMMENTS:

(Update, November 10, 2006. All revised and/or added text is shown in bold print.)
This item was continued at the November 9, 2006 Planning Commission meeting at the applicant's request in order to allow the applicant to submit additional information. To date, the information has not been submitted for review and approval. As such, staff is recommending that this item be continued to the December 7, 2006 Planning Commission meeting to allow the applicant to submit the additional information as identified below.

The applicant has submitted a Preliminary Plat to subdivide the subject property into three residential lots. In addition, the applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and additional pavement along Wilderness Canyon Road and to waive the requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along an access easement. The applicant has also submitted an Exception to the Street

No. 06PL169 - Preliminary Plat

ITEM 10

Design Criteria Manual to allow 156 dwelling units with one point of access in lieu of 40 dwelling units. (See companion item #06SV066.)

On June 19, 2006, the City Council approved a Layout Plat to subdivide the subject property into two lots. In addition, the City Council approved an Exception to the Street Design Criteria Manual to allow 155 dwelling units with one point of access in lieu of 40 dwelling units. (See companion item #06PL046.)

STAFF REVIEW:

During the review of the Preliminary Plat and the Variance to the Subdivision Regulations applications, staff has noted that additional information must be submitted to adequately review the requests. In particular, staff noted that a site plan showing the location of the existing residence(s), well(s), septic tanks and drainfields, shed(s), etc. must be submitted for review and approval. In addition, a water system analysis prepared by a Registered Professional Engineer and an on-site wastewater plan prepared by a Professional Engineer demonstrating that the soils are suitable for on-site wastewater systems must be submitted for review and approval. In particular, the information must include percolation test data and location as well as soil profile data and locations. In addition, data must be submitted identifying the depth to ground water. Staff also noted that a utility master plan showing private and public utilities must be submitted for review and approval. **As noted above, the information has not been submitted for review and approval. As such, staff is recommending that this item be continued to the December 7, 2006 Planning Commission meeting to allow the applicant to submit the additional information as identified.**
