No. 07RZ005 - Rezoning from General Agriculture District to Low Density Residential District

ITEM 28

DATE OF APPLICATION 1/12/2007

REVIEWED BY Travis Tegethoff / Mary Bosworth

RECOMMENDATION:

Staff recommends that the Rezoning from General Agriculture District to Low Density Residential District be approved with the following stipulation:

- 1. Prior to Planning Commission approval, a Planned Development Designation application shall be submitted and approved for the subject property.**

GENERAL COMMENTS:

This staff report has been revised as of February 12, 2007. All revised and/or added text is shown in bold print. The applicant has submitted a Rezoning request to change the zoning designation of the subject property from General Agriculture District to Low Density Residential District. In addition, on January 26, 2007 the applicant submitted a Comprehensive Plan Amendment to the US Highway 16 Area Future Land Use Plan to change the land use designation from General Commercial with a Planned Commercial Development to a Planned Residential Development with a maximum density of 4.8 dwelling units per acre on a portion of land located adjacent to the west side of the subject property. That application will be considered at the February 22, 2007 Planning Commission meeting. The applicant has also submitted a Preliminary Plat to subdivide the subject property into 41 residential lots. In addition, the applicant has submitted a Comprehensive Plan Amendment to the Major Street Plan to relocate a portion of the collector street Nugget Gulch Drive. (See companion items #06PL178, 07CA005, 07CA007, and 07RZ004.)

The property is located southeast of Catron Boulevard and Sheridan Lake Road. Currently, the property is void of any structural development.

STAFF REVIEW:

Staff has evaluated the proposed rezoning as it relates to the four criteria for the review of the zoning map amendments. A summary of Staff findings is outlined below:

- 1. The proposed amendments shall be necessary because of substantially changed or changing conditions of the area and district affected, or the City in general.*

The subject property is currently zoned General Agriculture District. The General Agriculture District has served as a holding zone until such time as the property is developed. As previously stated the applicant has submitted a Preliminary Plat for the subject property that will create 41 residential lots and dedicate additional right-of-way for public streets. The proposed extension of public streets as well as the extension of municipal water and sanitary sewer services to the property will change conditions within the area to support the extension of residential development. In addition, Catron Boulevard, a significant east-west arterial connection, is located approximately 1,000 feet to the north of the subject property and Nugget Gulch Drive, a collector street, will be extended through the subject property. It is anticipated that this will be an area of the community that will experience continued growth and development in the immediate and foreseeable future.

No. 07RZ005 - Rezoning from General Agriculture District to Low Density Residential District **ITEM 28**

2. *The proposed zoning is consistent with the intent and purposes of this ordinance.*

The purpose of the Low Density Residential District as stated in the Zoning Ordinance is to "...be used for single-family residential development with low population densities. Additional permitted uses, by review of the Common Council, include related noncommercial, recreational, religious and educational facilities normally required to provide the basis elements of a balanced and attractive residential area". The subject property is located south of an arterial street and adjacent to a residential area. Due to the existing zoning of the adjacent properties, the ability to extend City water and sewer services, and the topography of the area, the proposed rezoning would appear to be consistent with the intent and purposes of this ordinance.

3. *The proposed amendment will not adversely affect any other part of the City, nor shall any direct or indirect adverse effects result from such amendment.*

The subject property is located adjacent to a Low Density Residential Zoning District on the north. As a part of the platting of the subject property, infrastructure will be constructed to serve the proposed residential development. Water pressure appears to be adequate to serve the elevations as shown and detailed water and sewer information is required as part of the Preliminary Plat application. Staff recommends that prior to approval by the **Planning Commission**, a Planned Development Designation application shall be submitted and approved for the subject property. The additional review provided by an Initial and Final Planned Unit Development process will insure that any possible adverse impacts of development and/or redevelopment are adequately mitigated. Based on the provision of a Planned Development, staff has not identified any significant adverse impacts that will result from the requested rezoning.

4. *The proposed amendments shall be consistent with and not in conflict with the development plan of Rapid City including any of its elements, major road plan, land use plan, community facilities plan, and others.*

The Major Street Plan identifies Nugget Gulch Drive as a proposed collector street. Allowing residential use(s) along a collector street is in compliance with the Major Street Plan. The Comprehensive Plan identifies the subject property as appropriate for a Planned Residential Development with a maximum of 4.8 dwelling units per acre. The proposed Low Density Residential Zoning District is consistent with the densities approved in the U.S. Highway 16 Future Land Use Plan. As such, staff recommends that prior to approval by the **Planning Commission**, a Planned Development Designation application shall be submitted and approved for the subject property.

Notification Requirement: As of this writing, the receipts from the certified mailings have been returned and the sign has been posted on the property.
