

To Whom It May Concern,

February 23, 2007

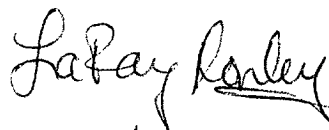

I am applying for a conditional use permit to get permission from the city to start a 1-2 unit Bed and Breakfast. I would like to start with just one unit and if it goes well, maybe do a second unit in a year or two.

For almost 10 years I have asked people that work out of their home what they do to see if any of those jobs would be for me so I could stay home with my son. None of them appealed to me until I bought this house and thought of the idea after we had moved in. My home is beautiful and I have a lot of extra space that my son and I don't need; so, I would like to offer part of my home to tourists, (mainly families with children).

I plan on my main business running from May 15 to Sept 15 of each year. If I get any business in the winter, that's fine. If not, that's fine, too. I would like to start out being open year round with a continental breakfast. I have been working hard getting all of the necessary paperwork completed and mailed in. I have also been working hard painting the inside and outside of my home to make it beautiful. I am really excited about doing a B & B. I hope you will give me the opportunity.

Sincerely,

LaRay Donley
