RECOMMENDATION:
Staff recommends that the Planned Commercial Development - Final Development Plan be continued to the September 6, 2007 Planning Commission meeting to allow the applicant to submit a revised site plan.

## GENERAL COMMENTS:

The applicant has submitted a Final Commercial Development Plan to construct 1,057 parking spaces with landscaping within the eastern portion of Rushmore Crossing development. In addition, the applicant has submitted a Final Commercial Development Plan (\#07PD061) to construct a sporting goods retail store as a part of the Rushmore Crossing development. The applicant has also submitted a Final Commercial Development Plan (\#07PD062) to construct 129 parking spaces with landscaping within the central portion of the Rushmore Crossing development.

On June 4, 2007, the City Council approved a Preliminary Plat application (\#07PL038) to subdivide 126.54 acres into 24 commercial lots and to vacate a 30 foot wide private access easement, to vacate a portion of a section line highway located between Sections 29 and 32, to vacate a portion of a section line highway located between Sections 29 and 30, to vacate a portion of Rapp Street and to vacate a 66 foot wide public access easement, which included the subject property.

On June 4, 2007, the City Council approved a Vacation of Right-of-Way request
(\#07VR002) to vacate a portion of Rapp Street currently located in an H Lot. In addition, on June 18, 2007, the City Council approved Vacation of Right-of-Way request (\#07VR003) to vacate a portion of Farnwood Avenue, also located within an H Lot.

On August 1, 2005, the City Council approved a Layout Plat (\#05PL085) to subdivide a 95.28 acre parcel into 17 commercial lots. The Layout Plat included the subject property.

On February 6, 2006, the City Council approved Tax Increment District \#56 for the construction of streets, traffic signals, a regional drainage detention dam, high pressure water main and sanitary sewer main and the relocation of power lines associated with the proposed Rushmore Crossing project.

On October 2, 2006, the City Council approved a revised Layout Plat (\#06PL142) to subdivide a 117.29 acre parcel into 15 commercial lots and two detention pond lots. The Layout Plat included the subject property.

On April 26, 2007, the Planning Commission approved an Initial Commercial Development Plan (File \#07PD019) to construct approximately 861,000 square feet of new commercial development on 127 acres, which included the subject property.

On May 21, 2007, the City Council approved a Variance to the Subdivision Regulations application (\#07SV013) to waive the requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along Interstate 90, Spruce Street, E. North Street, Sunnyside Avenue and Cambell Street, to waive the requirement to install curb, gutter, sidewalk, street light conduit, water and sewer along Rapp Street and the proposed access easements, and, to waive the requirement to dedicate additional right-of-way along Cambell Street and the access easements with stipulations.

On May 24, 2007, the Planning Commission approved a Final Commercial Development Plan application (\#07PD032) to construct a 131,748 square foot commercial building. In addition, the Final Commercial Development Plan included Eglin Street right-of-way between LaCrosse Street and E. North Street and the entryways into the development at the intersections of Eglin Street and LaCrosse Street and Eglin Street and E. North Street. The proposed commercial building, a "Target" store, was approved as Phase One of the Rushmore Crossing commercial development.

The property is located between LaCrosse Street and E. North Street on the south side of Interstate 90 and is currently void of any structural development.

## STAFF REVIEW:

Staff has reviewed the Final Commercial Development Plan and has noted the following considerations:

Traffic Impact Study: A Traffic Impact Study was submitted with the associated Preliminary Plat identifying stacking and queuing lengths needed along Eglin Street. In particular, the Traffic Impact Study identified that two left exit lanes with a minimum queue length of 150 feet per lane must be provided at the middle approach to the parking lot. The Traffic Impact Study also identified that the eastern approach to the parking lot must provide 75 foot of storage.

The site plan currently shows one left exit turn lane at the middle approach and approximately 40 foot of storage at the eastern approach. Revising the site plan to provide the additional storage and turning lane(s) may significantly alter the parking layout. As such, staff is recommending that the Final Commercial Development Plan be continued to allow the applicant to submit a revised site plan as identified.

Parking: The applicant has indicated that the proposed parking lot is being constructed in order to provide parking for 229,206 square feet of future commercial use within this area of the project. The proposed commercial use, calculated at a ratio of 4.5 parking spaces per 1,000 square foot of gross floor area, requires a minimum of 1,032 parking spaces. In addition, 21 of the parking spaces must be handicap accessible with two of the handicap spaces being "Van" accessible. The parking plan identifies 1,057 parking spaces with 20 handicap spaces. Eight of the handicap spaces are "Van" accessible. Staff is recommending that the parking plan be revised to provide one additional handicap accessible space for a total of 21 spaces as required.

Utility Easements: The construction plans identify the extension of water and sewer lines through the parking lot. Staff is recommending that the Final Plat document be revised to show the utility lines within utility easements or miscellaneous documents must be recorded securing the utilities within utility easements prior to issuance of a building permit for the parking lot.

Landscaping: A minimum of 633,214 landscape points are required. In addition, a minimum of 21 landscape islands must be provided. The site plan identifies 633,214 landscape points with 49 landscape islands. Staff is recommending that the landscaping be provided as proposed and continually maintained in a live vegetative state and replaced as necessary. In addition, the landscaping plan must comply with all requirements of the Zoning Ordinance.

Legal Notification Requirement: The receipts from the certified mailings have not been returned. Staff will notify the Planning Commission at the August 23, 2007 Planning Commission meeting if this requirement is not met. Staff has not received any calls or inquires regarding this proposal.
