

07PD066

This building is similar to the building to be constructed. It will not include the small cashier building in front or the tower in the middle of the roof. The roof will be hipped and will be a blue steel as in the photo. The walls of the building will be made from a finished concrete form. The walls will be white in color.

This is similar to the vacuum cleaner islands that will be constructed. The only change is there will not be an awning above the island. Pre-finished concrete forms will be used for construction material. This is the same material the building will be constructed from. The island will be white and the vacuum cleaners will be stainless steel with a blue top.

Island Size – 10' long, 40" wide, and 2' tall

Vacuum cleaner size – 55" tall, 19" wide

Vacuum cleaner noise level – 81.3dB at 10', 75.3dB at 20', 71.8dB at 30', 69.3dB at 40', 67.3dB at 50'.
