## Horse Corral Panels

Available in 5' and 6' tall configurations, the Equestrian World corral panels feature straight end posts and chain latch hookups. Lightweight but sturdy, these panels are great for transporting as well as stationary placement. Our all-new cup assembly makes a tighter and more secure fit. With horse and rider safety as our primary design goal, the exterior single-side pipe bracing provides a continuous and smooth interior surface. The 5' tall panels are available in 10', 12' and 16' lengths in gray powder coat. The 6' tall panels are available in 12' lengths only in gray powder coat. The 12'5' tall panel is now also available in a bright white powder coat. Available individually or in bundles of 12.

## Horse Walk-Thrus

The Equestrian World Walk-Thru Arch Gate is designed to complement our 5' and 6' tall corral panels. This walk-thru arch gate features a chain latch hookup to your corral, a high-mount latch for easy-opening, and a 9' arch with a 6' wide opening. The 5' tall gate is available in white or gray powder coat. The 6' tall gate is available in gray powder coat only.
