Re: No. 07SRO48

This structure has already been moved to a spot that is within 10' of the bike path. The building is someone's used old storage shed, and in poor condition. This structure first should not be allowed in the greenway and if allowed should be located in an area of little or no pedestrian traffic. Hundreds of walkers, bikers and joggers pass this spot every day. The building detracts from the bike path experience, is an eyesore that should not be permitted to infringe on our beautiful park space. Please deny this request

Sincerely,

Steve McCarthy
