RE: File Number 07RZ075

We live at 1020 Kansas City Street and it is a residence.

We do not want the premises affected by the above file number rezoned from Office Commercial to General Commercial.

This rezoning would open the door to businesses that we don't want in a residential neighborhood. As it is, the alley behind our house is almost too small now and with added traffic there would be more of a chance for accidents.

Thank you.

John & Linda Embrock
