Subject: RE: Permit for Founders Park

I am awaiting official word from FEMA regarding temporary structures in the floodway but our state floodplain coordinator has told me that FEMA does not regulate temporary structures in the floodway. I will put the permit together and give it to Rod Johnson to sign if you want me to.

In looking on the map that was given to us regarding the floodway, we will have our vendor area set up south of that line on the south side of the sidewalk and fish east of the parking lot. Let me know.
