RECOMMENDATION:

Staff recommends that the Vacation of Access Easement be continued to the May 22, 2008 Planning Commission meeting.

GENERAL COMMENTS:

The applicant has submitted a document identified as "Exhibit A" which identifies a 50 wide access easement to be vacated. The property on which the access easement is located is a 140 acre unplatted parcel that abuts Sturgis Road. The access easement serves of access to this parcel, as well as Lot 1 of Limestone Subdivision, which is located on the northern boundary of the unplatted 140 acre parcel. Currently, the first 75 feet of the access easement extending from Sturgis Road is a 25 foot wide gravel surface, the remainder of the access easement is unimproved. The property is not located within the municipal boundaries of the City of Rapid City, however the property is located within the City of Rapid City Three Mile Platting Jurisdiction. An associated Preliminary Plat application (#08PL016) to reconfigure 24 lots, including Lot 1 of Limestone Subdivision, into three lots identified as

ITEM 20

Lot 1 and Lot 2 of Keller Subdivision, and Tract 1 of Schaeferville Subdivision has been filed. A Variance to the Subdivision Regulations (#08SV010) to waive the requirement to construct curb, gutter, sidewalk, street light conduit, water, sewer and to waive the requirement to dedicate additional right-of-way and pavement along Sturgis Road, and the section line highway, Neiger Court, Zenker Place and the access easements has been submitted. However, as of this writing, the associated Preliminary Plat request and associated Variance to the Subdivision Regulations request have not been approved by the Planning Commission. The property is zoned Heavy Industrial District by Pennington County.

STAFF REVIEW:

As noted, the applicant is proposing to vacate a 50 wide access easement located on an unplatted 140 acre parcel. Lot 1 of Limestone Subdivision is located north of this unplatted balance and also abuts Sturgis Road. Currently, a non-access easement is located along the boundary of Lot 1 of Limestone Subdivision where it abuts Sturgis Road. The 50 foot wide access easement is in place to serve of access to Lot 1 of Limestone Subdivision. The associated Preliminary Plat (#08PL016) identifies Lot 1 of Limestone as being a portion of proposed Tract 1 of Schaeferville Subdivision. Access to this area can be obtained from Neiger Court and Zenker Place as identified on the Preliminary Plat.

Staff finds that the unplatted 140 acre parcel has legal access from Sturgis Road and the 50 foot access easement would not be needed to serve as means of access to Lot 1 of Limestone Subdivision when the property is replatted as Tract 1 of Schaeferville Subdivision. Staff recommends that the Vacation of Access Easement be continued until the Final Plat creating Tract 1 of Schaeferville Subdivision is recorded.

The applicant has requested that the associated Preliminary Plat (#08PL016) and associated Variance to the Subdivision Regulations (#08SV010) be continued to the May 22, 2008 Planning Commission meeting. Staff recommends that this item be continued to the May 22, 2008 Planning Commission meeting to be heard in conjunction with these associated items.
