When showing station order to the plan of any construction, the contractor shall obtain the location and elevation of existing utility lines before construction.

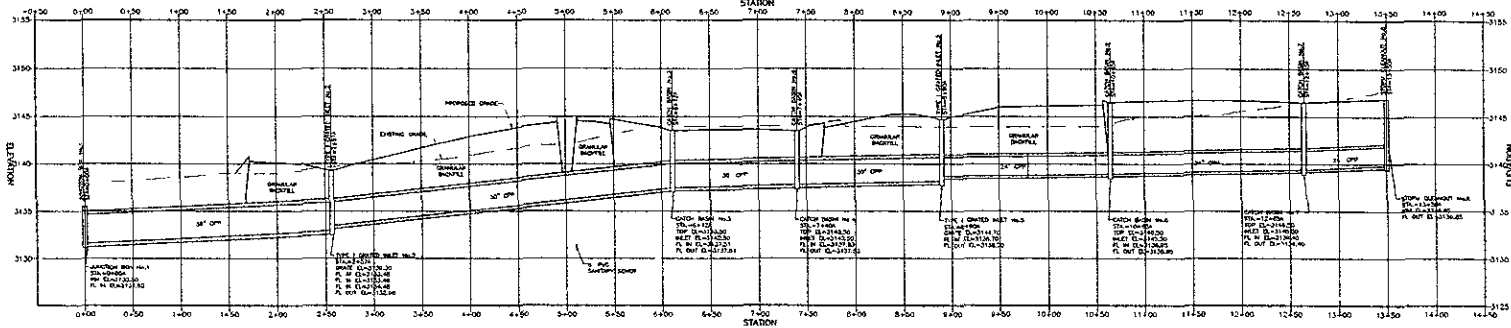

OF

STORM SEWER PLAN AND PROFILE

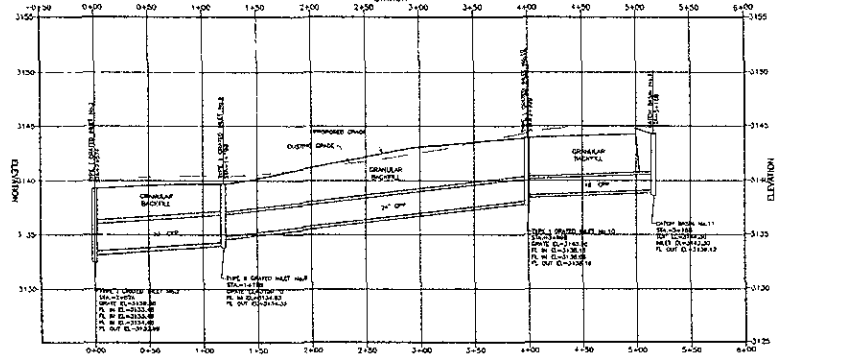

- NOTES:
- The Engineer is not responsible for existing or future conditions of any existing or future structures or utilities, or for any damage or injury resulting from the construction or operation of the sewer system. The Contractor shall be responsible for the protection of all existing structures and utilities, and for the safety of all workers and the public.
 - Work shall be done in accordance with the latest edition of the Standard Specifications for Sewerage and Sanitation, published by the American Public Works Association, and approved by the Engineer.
 - The Engineer shall have the right to suspend work at any time if the Contractor fails to comply with the contract documents.
 - The Contractor shall provide all necessary permits, licenses, and certificates for the construction and operation of the sewer system.
 - The Contractor shall maintain access to all existing structures and utilities, and shall be responsible for the protection of all existing structures and utilities.
 - The Contractor shall provide all necessary traffic control and safety measures during the construction of the sewer system.
 - The Contractor shall be responsible for the maintenance and repair of the sewer system during the warranty period.
 - The Contractor shall be responsible for the removal of all debris and waste from the construction site.
 - The Contractor shall be responsible for the restoration of all disturbed areas to original or better condition.
 - The Contractor shall be responsible for the protection of all existing structures and utilities, and shall be responsible for the safety of all workers and the public.
 - The Contractor shall be responsible for the maintenance and repair of the sewer system during the warranty period.
 - The Contractor shall be responsible for the removal of all debris and waste from the construction site.
 - The Contractor shall be responsible for the restoration of all disturbed areas to original or better condition.
 - The Contractor shall be responsible for the protection of all existing structures and utilities, and shall be responsible for the safety of all workers and the public.
 - The Contractor shall be responsible for the maintenance and repair of the sewer system during the warranty period.
 - The Contractor shall be responsible for the removal of all debris and waste from the construction site.
 - The Contractor shall be responsible for the restoration of all disturbed areas to original or better condition.
 - The Contractor shall be responsible for the protection of all existing structures and utilities, and shall be responsible for the safety of all workers and the public.
 - The Contractor shall be responsible for the maintenance and repair of the sewer system during the warranty period.
 - The Contractor shall be responsible for the removal of all debris and waste from the construction site.
 - The Contractor shall be responsible for the restoration of all disturbed areas to original or better condition.
