Proposal

We would like to open a Drop in DayCare Center - we are willing to add or put in whatever is needed to comply with the State or City regulations. We will be applying for grants when we know exactly what we need to add and what is required in order for us to open the daycare center.

We would like to take children age 0 - 10 years - This would be a drop in daycare so it would be on a first come first serve basis - to my knowledge there is not a drop in daycare center here in Rapid City -

Proposal

p. 2

We have added a couple pages of what we plan to do once we get approved. One page shows where all the fire alarms will go. We did have some men from the fire department come out and they told us what needs to be done. Also one page shows where we plan to put in the play yard outside.

I don't know for sure how all the rooms will be used. All the rooms will be thoroughly cleaned and we will put wall to wall carpeting in all the rooms. The room with P16 on it will be used for infants and toddlers sleeping. I would like to have at least four cribs and a couple rocking chairs in there. The stage area, which is P22, I would like to put an accordion door across and use for infant toddler play area. I would like to put the changing table in the women's bathroom. The large open area I would like to use for eating lunch & snacks. Also for a larger play area and for group activities such as crafts. In rooms P17, P18, P19, and P20 I would like to do activities for the different age groups. Possibly put a movie projector in one room for rainy days.
