

**Example of Sign to Be Placed On Soo San Drive For
Black Hill Montessori Child Development Center**

Sign will be as in picture below minus the portion which is above the horizontal post. The vertical post will not be taller than 6' at its highest, and most likely be closer to 4' - 5'. The drop down sign will measure no larger than 24" x 24", but will likely be 18" x 24". A request is hereby made to keep the option of the lower portion of the sign (as shown below with labeled "POOL") for seasonal or occasional items, such as classroom vacancy, hours of operation, or informative phone numbers. The proposed sign shall look approximately like:

The above slogan is not final. A graphic designer will be contracted (Aaron Stone 605.641.7418) and he will design and place a backdrop to this general idea. The backdrop will likely be a silhouette of the Black Hills. The sign will be on the east side of Soo San Drive, on St. Andrew's Episcopal Church property. The sign with face just west of north (perpendicular to traffic so sign can be read from both directions) and will be located near existing sign, within 70', at same proximity to property line as existing sign and either north or south or adjacent to current sign, preferably to the north, or to the south so as to encourage traffic to enter via Soo San Drive, the safer route of entrance (in the applicant's opinion and in the property owner's opinion). See attached RapidMap photo.
